

Document No.	Title (English)	Rev. No.	Revision Date	Status	Amendment Date	Amendment Record Details
MX-FAE-STD-A101	Architectural Materials and Finishes Design Standard	0	2025-12-01	Current	2026-01-16	New standard established.
MX-FAE-STD-C002	Facilities Civil Engineering Standard - Wastewater Systems	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C010	Facilities Building Envelope Standard – Enclosed Pedestrian Br	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C011	Facilities Building Envelope Standard - Low-Slope Roofing	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C009	Facilities Building Envelope Standard - Waterproofing	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C001	Facilities Civil Engineering and Building Envelope Standard - General	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C006	Facilities Civil Engineering Standard - Site Elements	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-A004	GO Station Architecture Design Standard	2	2025-10-31	Current	2025-10-31	Editorial changes, incorporation of DRM platform requirements, lessons learned, tables converted to clauses, restructured numbering and organization for consistency with Design Standards. Coordination with the Front End Design Standard (DS-00).
MX-FAE-STD-C008	Facilities Civil Engineering Standard - Swept Path Analysis	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C003	Facilities Civil Engineering Standard - Water Supply Systems	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C007	Facilities Civil Engineering Standard - Pavement Markings	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-C005	Facilities Civil Engineering Standard - Pavement Structures	0	2025-10-31	Current	2025-11-27	New standard established.
MX-FAE-STD-A009	Subway Station Architecture Design Standard	2	2025-10-31	Current	2025-10-31	Provide requirements and guidance for the delivery of sustainable stations and facilities
MX-FAE-STD-C004	Facilities Civil Engineering Standard - Stormwater Systems	0	2025-10-31	Current	2025-11-27	New standard established.

Document No.	Title (English)	Rev. No.	Revision Date	Status	Amendment Date	Amendment Record Details
MX-FAE-STD-X001	GO Design Requirements Manual (DRM)	0	2025-10-25	Current	2025-10-25	Civil Updates:Reorganized Section 3 (Site Program) and transferred relevant Appendix B content to FAE architectural standards. Developed eleven new standalone multi-modal standards (e.g., Pavement, Site Elements, Stormwater, Water Supply, Wastewater) to consolidate and expand technical civil requirements applicable to GO, LRT, BRT, and Subway facilities.Electrical & Communication Updates:Revised Sections 5.1–5.3 to clarify power supply, distribution, lighting, and communication requirements. Enhanced alignment with current codes, Metrolinx IT standards, and industry best practices; relocated select requirements to Electrical Specifications for consistency.
21 12 00	Fire Protection Standpipe System	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
20 05 01	Metrolinx Mechanical Design Checklist	0	2025-09-30	Current	2025-11-27	New standard established.
23 25 00	HVAC Water Treatment	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
21 22 00	Clean Agent Fire Suppression System	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
20 05 05	Mechanical Work General Instructions	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
23 83 13	Electric Heating Cable and Control	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
23 52 22	Condensing Hot Water Boilers	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
23 52 23	Near Condensing Hot Water Boilers	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
23 52 19	Wall Hung Condensing Hot Water Boilers	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
23 30 00	HVAC Air Distribution	1	2025-09-30	Current	2025-09-30	Updated format and quantified amount of wire mesh shall be provided as spare part.
20 05 50	Testing, Adjusting and Balancing	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
23 11 23	Natural Gas Piping System	3	2025-09-30	Current	2025-09-30	Updated protection requirements for equipment within public spaces so that utility companies can have full access to their meter and pressure regulator
21 20 05	Fire Extinguishers	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards

Document No.	Title (English)	Rev. No.	Revision Date	Status	Amendment Date	Amendment Record Details
23 11 13	Fuel Oil System	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity, alignment with updated industry standards and added the requirement for leakage test detection report
20 05 25	Mechanical Insulation	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity, Added list of acceptable manufacturers for “Adhesive backed flexible aluminium” type insulation finish
20 05 10	Basic Mechanical Materials and Methods	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
20 05 40	Mechanical Work Commissioning	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
23 81 26	Split Type Air to Air Heat Pump Unit	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
21 13 00	Fire Protection Sprinkler System	4	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
23 21 12	Hydronic Radiant Floor Heating System	3	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
20 05 35	Demolition and Revision Works	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
23 51 23	Flue Gas Vents	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
22 11 00	Domestic Water Piping and Specialties	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
23 75 00	Custom Made Air Handling Units	2	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
20 05 55	Firestopping and Smoke Seal System	1	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity
23 20 00	HVAC Piping And Pumps	3	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
22 13 00	Drainage and Vent Piping and Specialties	3	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
22 42 00	Plumbing Fixtures	4	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards
23 74 17	Rooftop Air Conditioning Unit	3	2025-09-30	Current	2025-09-30	Updated format and revised requirements for clarity and alignment with updated industry standards, Added additional specification sections to list of Related Works
26 29 23	Variable Speed Drives	0	2025-09-16	Current	2025-11-27	New Standards (VFDs has been removed from Specs 26 29 10 Motor Starters and Contactors Specification to create separate specification for VFDs)
26 37 00	Outdoor Load Bank	2	2025-09-15	Current	2025-09-15	Updated format and revised requirements for clarity

Document No.	Title (English)	Rev. No.	Revision Date	Status	Amendment Date	Amendment Record Details
26 36 23	Transfer Switch	2	2025-09-14	Current	2025-09-14	Update format, Relocated existing requirement to the correct section of the specification. Added requirements for ATS
26 33 53	Uninterruptible Power Supply	2	2025-09-13	Current	2025-09-13	Updated format, revised requirements, and deleted flywheel energy storage subsystems for clarity
26 32 00	Backup Power Supply Generator	2	2025-09-12	Superseded	2025-09-12	Updated format and revised requirements for clarity
26 32 00	Backup Power Supply Generator	3	2025-09-12	Current	2025-09-12	Updated format and revised requirements for clarity
26 29 10	Motor Starters and Contactors	2	2025-09-11	Current	2025-09-11	Updated format, requirements, Deleted requirements for fuses & fused disconnect switch. Deleted VFD Motor Starters for new VFD specification.
26 28 23	Disconnect Switches	2	2025-09-10	Current	2025-09-10	Updated format and revised requirements for clarity
26 27 26	Electrical Receptacles and Plugs	2	2025-09-09	Current	2025-09-09	Revised to clarify receptacle requirement and installation. General format updated for clarity.
26 24 13	Switchboards and Panelboards	2	2025-09-08	Current	2025-09-08	Updated format and revised requirements for clarity
26 24 19	Motor Control Centers	2	2025-09-07	Current	2025-09-07	Updated format, and revised requirements of MCC starters for clarity.
26 23 00	Low Voltage Switchgears	2	2025-09-06	Current	2025-09-06	Revised circuit breaker requirements. Updated metering requirement for clarity. General format updated
26 05 53	Electrical Identification and Nomenclature	2	2025-09-05	Current	2025-09-05	Updated format and revised requirements for clarity
26 05 34	Raceway for Electrical Systems	1	2025-09-04	Current	2025-09-04	Revised to clarify conduit material and installation requirements for clarity
26 05 31	Splitter Boxes, Junction Boxes, Pullboxes and Cabinets	2	2025-09-03	Current	2025-09-03	Updated format, numbering on Electrical Identification and Nomenclature Specification and revised requirements for clarity
26 05 21	Electrical Conductors and Cables	3	2025-09-02	Current	2025-09-02	Updated format and revised requirements for clarity
26 05 00	Electrical General Requirement	2	2025-09-01	Current	2025-09-01	Updated format and added new requirements
DS-09	Subway Station Architecture Design Standard	2	2025-05-16	Superseded	2025-05-16	Errata to include internal Metrolinx lessons learned from within Section 1.1, clarify bicycle tunnel and secondary handrail locations in Section 4.6.5 q) ii., clarify sliding entrance doors are only required at accessible entrances within Section 4.4.2, clarify tertiary entrance vertical circulation requirements in Section 4.6.10 and 4.6.11, and update Figure 7-9 to align with requirements.
DS-00	Front End Design Standard	2	2025-02-28	Current	2025-04-15	Editorial changes to reduce duplication of requirements across modal standards, incorporate requirements from STS-001 Rev01 Bulletin Operations and Maintenance Requirements Station Services, restructure numbering for consistency with Design Standards, and

Document No.	Title (English)	Rev. No.	Revision Date	Status	Amendment Date	Amendment Record Details
DS-09	Subway Station Architecture Design Standard	2	2025-02-01	Superseded	2025-05-16	Revisions to various sections including, vertical circulation, entrance types, thermal comfort, sustainability, accessibility, removal of TTC references, coordination between Design Standards (Section 1.2, Section 2.1, and Section 3 content migration to
DRM (R5) Bulletin 002	Refrigerant Updates	0	2025-01-20	Current	2025-03-06	New Bulletin Added: Removed R-410A refrigerant and specified R-32 or R-454B refrigerant in compliance with updated guidelines.
23 21 18	Glycol Solution Snow Melting System	5	2025-01-01	Current	2025-03-14	Revised to clarify piping, manifold, and installation requirements. Added requirements for further code compliance
DGL-14-EN	Shared Stations Design Guideline	0	2024-11-01	Current	2025-01-02	New design guideline.
DGL-14-FR	Shared Stations Design Guideline	0	2024-11-01	Current	2025-01-02	Nouvelle Ligne directrice de conception
DGL-11-FR	Front End Design Guideline	0	2024-08-01	Current	2024-08-01	New standard document uploaded.
DGL-11-EN	GO Rail Advertising Design Guideline	0	2024-08-01	Current	2024-08-01	New standard document uploaded.
UNASSIGNED-016	DGL-11 GO Rail Advertising Design Guideline Errata	0	2024-07-29	Current	2024-07-29	New standard document uploaded.
165-SER-E-2001A	Sample Electrical Room Layout - Legend and Notes (1/2)	1	2024-07-05	Current	2024-07-05	Revised Notes / Details
