

North parking lot closure at Don Montgomery Community Recreation Centre

Long-term closure beginning February 10, 2025

What is Happening

- To ensure safe construction of the Scarborough Subway Extension, the north parking lot at the Don Montgomery Community Recreation Centre (located at 2467 Eglinton Avenue East) will be closing and converted to an active construction site for the duration of the project.
- The lot will be closed to accommodate construction of the Kennedy Box Structure, which will connect Kennedy Station with the subway extension's tunnel boring machine extraction shaft at Midland Avenue and Eglinton Avenue East.

What to Expect

- The south parking lot of the Don Montgomery Community Recreation Centre will remain open during the north lot closure.
- Pedestrian access will be maintained from the north parking lot for both Kennedy Station and the community centre.
- Work areas will be clearly marked or fenced off as required to ensure public safety. Fencing will feature a slit cloth, where possible, to help control dust and debris.
- Residents and businesses near the work site can expect to hear noise caused by trucks and other construction equipment.
- As crews begin construction, some equipment may be left on site for the duration of work but will be safely secured and stored when not in use.

About the Project

- A nearly eight-kilometre subway extension will extend Line 2 further into Scarborough.
- Three new stops will have connections to up to six other transit options including TTC buses, GO train, GO buses, the Eglinton Crosstown LRT, Durham Region Transit, and the proposed Sheppard Extension.
- The extension will accommodate up to 105,000 daily boardings and put 34,000 more jobs within walking distance to rapid transit.
