GO Expansion

Construction Notice

West Toronto Railpath
Resurfacing and Landscaping

Scheduled Start Date: September 15, 2026
Scheduled End Date: November 1, 2026
Working Hours: Monday to Friday, 7 a.m. to 5 p.m.

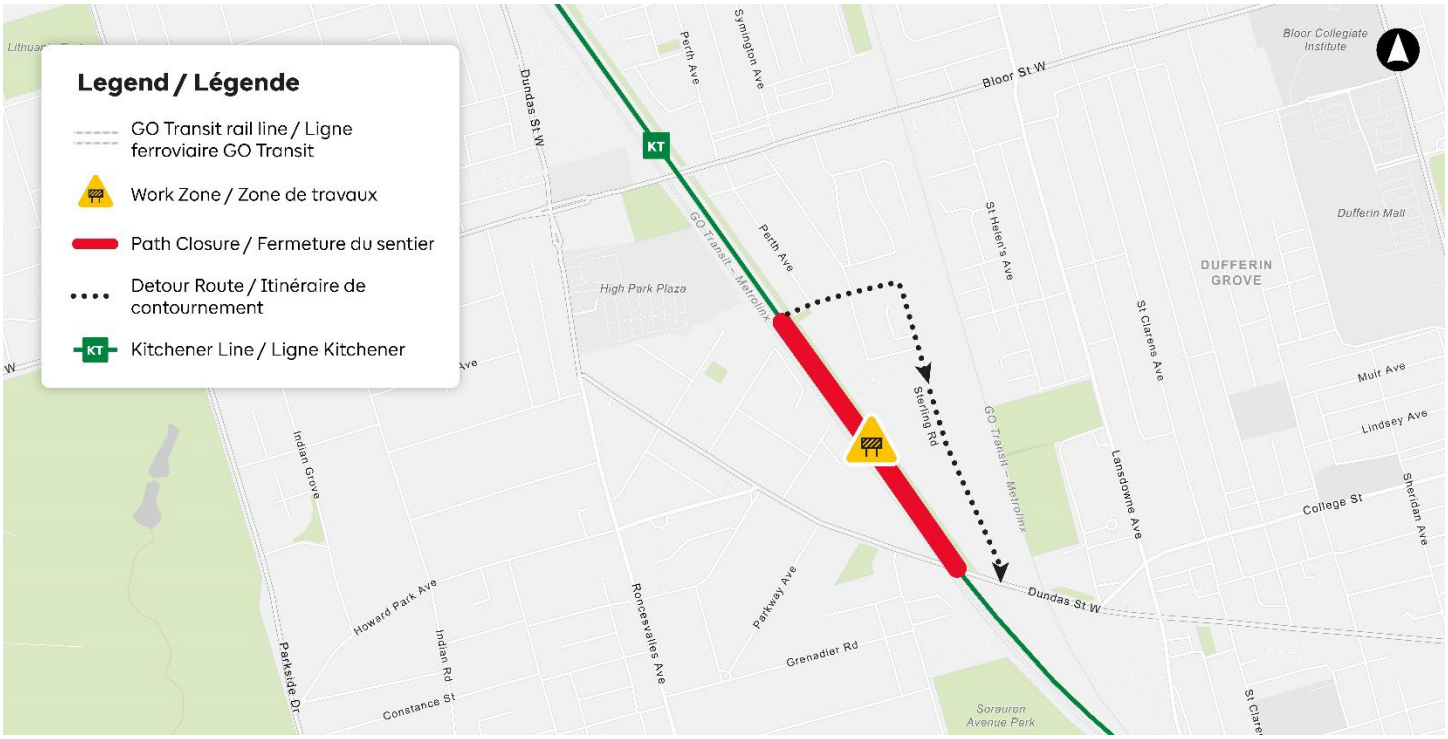

Figure 1: Map showing the extent of the work area

What is Happening?

The West Toronto Railpath will be resurfaced between Perth Ave and Dundas St W starting the week of September 15. Crews will remove and replace the existing asphalt and install a new granular shoulder. Portions of this area will be regraded to improve drainage, followed by landscaping and planting of new trees and shrubs.

What to Expect?

- Full closure of the West Toronto Railpath between Perth Ave and Dundas St W until November 1, 2026 (dates are subject to change).
- Equipment and deliveries will enter and exit the site via Perth Ave.
- Crews will remove asphalt, regrade landscaped areas and replace with new paving, planting and line marking. These dates are tentative and may be subject to change due to weather or unforeseen circumstances.
- Work will be conducted as quickly and efficiently as possible to minimize disturbances, but residents and businesses in the area can expect to hear noise caused by trucks and equipment.

Traffic Changes

- No disruptions to traffic are anticipated.

Pedestrian Access

- West Toronto Railpath users can use Sterling Rd to bypass the closure.
- Signage will be installed to guide pedestrians around the detour.
- Please respect all safety and exclusion measures installed to protect you.

Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.

Transit Service

- There is no anticipated impact to transit services.

About the Project

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

Metrolinx is building a new track on the Kitchener GO line, next to the West Toronto Railpath (WTRP). Part of this work includes construction of a new entrance to Bloor GO Station, a new community park at Ernest Avenue and realignment of the Railpath, on behalf of the City of Toronto.
