
GO Expansion - Toronto West Construction Update

Project: Bloor GO (TTC Connection)

As part of GO Expansion, Metrolinx is building an accessible underground pedestrian tunnel extension connecting Bloor GO/UP Station to Dundas West TTC Station.

Date: May 7, 2026

This is a monthly update on construction activities for **Bloor GO (TTC Connection)** construction project. It includes a summary of work completed in the past month, upcoming or ongoing activities, and any potential community impacts residents and businesses should be aware of.

1. Recently Completed Work

Eastbound Station Wall Removal: Coring, wire cutting and concrete removals of the station wall on the TTC platform level.

Figure 1: Eastbound Platform Opening

2. Upcoming and Ongoing Work

Activity 1: Eastbound and Westbound Staircase Work

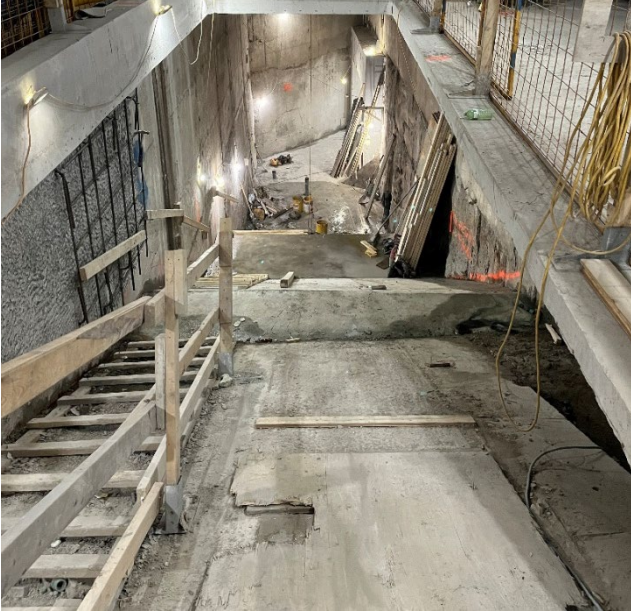

Figure 2: Eastbound Staircase Work

Location: Underground staircases leading to TTC Platform Level

Timing: Upcoming - Daytime

Potential Impacts: Minimal noise within the hoarded area.

Mitigation Measures: Noise monitoring

Why this work is happening now:

This phase of work includes exciting milestones in the construction of the future staircases that passengers will use to access the TTC platform and Line 2 network.

3. Looking Ahead

Over the coming months, construction is expected to continue as before, further progressing the work within the westbound and eastbound staircases. We will continue to provide advance notice ahead of any significant changes to construction activity or potential impacts.

4. Stay Connected

If you have questions or comments about this work, please contact the Toronto West Community Engagement Team:
