Dear Ms. General,

Please find attached, a letter outlining the Notice of Publication of Draft Environmental Conditions Report for the Ontario Line Project. The link to access the report can be found here: [REDACTED]

A copy of the formal Notice, and the impact and mitigation tables for this project have been attached. We hope these tables might help to streamline your review.
Comments and feedback are requested by October 17, 2020.

We appreciate the size of these documents. Please let us know if you would like a meeting to review the project with our environmental teams or speak to me further about best practices for engaging your community.

If you have any questions or concerns, please feel free to reach out to me at any time.

Miigwetch!

Fallon

Good Morning Ms. General,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network. I have attached a letter to this email that provides high level details of the project.

As detailed within the letter, Early Works Reports are available for your review at the following links:

- Early Works Report 

- Early Works Natural Environment Report:

If you have any comments on these reports, please share them by August 31, 2020.

Metrolinx would appreciate any interest that your First Nation may have in this project and would welcome the opportunity to meet with you to provide more information and discuss any interests or questions that you may have.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Miigwetch,

Fallon

Hi Maxime,

As I follow up to my email and letter yesterday I have included the Ontario Line Early Works Natural Environment Report for your review. The report may be accessed via Dropbox [REDACTED]

We are requesting comments on the report by July 2nd, 2020 if possible,

Miigwetch,

Fallon

Hi Maxime,

Attached is the Project Specific Transmittal Letter for the stage 1 AA's (North, South and West) for the Ontario Line Project.

The draft Stage 1 Archaeological Assessments can be found [REDACTED] via Dropbox. We would appreciate if comments could be provided by end of day, April 24.

Metrolinx looks forward to receiving your review feedback.

I hope you are staying safe and healthy

Thanks,

Fallon

Objet : Ontario Line Subway Project

Good Afternoon Maxime,

As mentioned in a phone call and email to you Metrolinx, in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network. More details about the project can be accessed here:

<http://www.metrolinx.com/en/greaterregion/projects/ontario-line.aspx>

I have attached a letter to this email that provides high level details of the project, which has also been sent to you by registered mail.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community by following our engagement protocol.

Please do not hesitate to contact me.

Miigwetch,

Fallon

Huron-Wendat Nation Meeting

Overview of Metrolinx Projects 2019

November 13, 2019

Ontario Line Overview

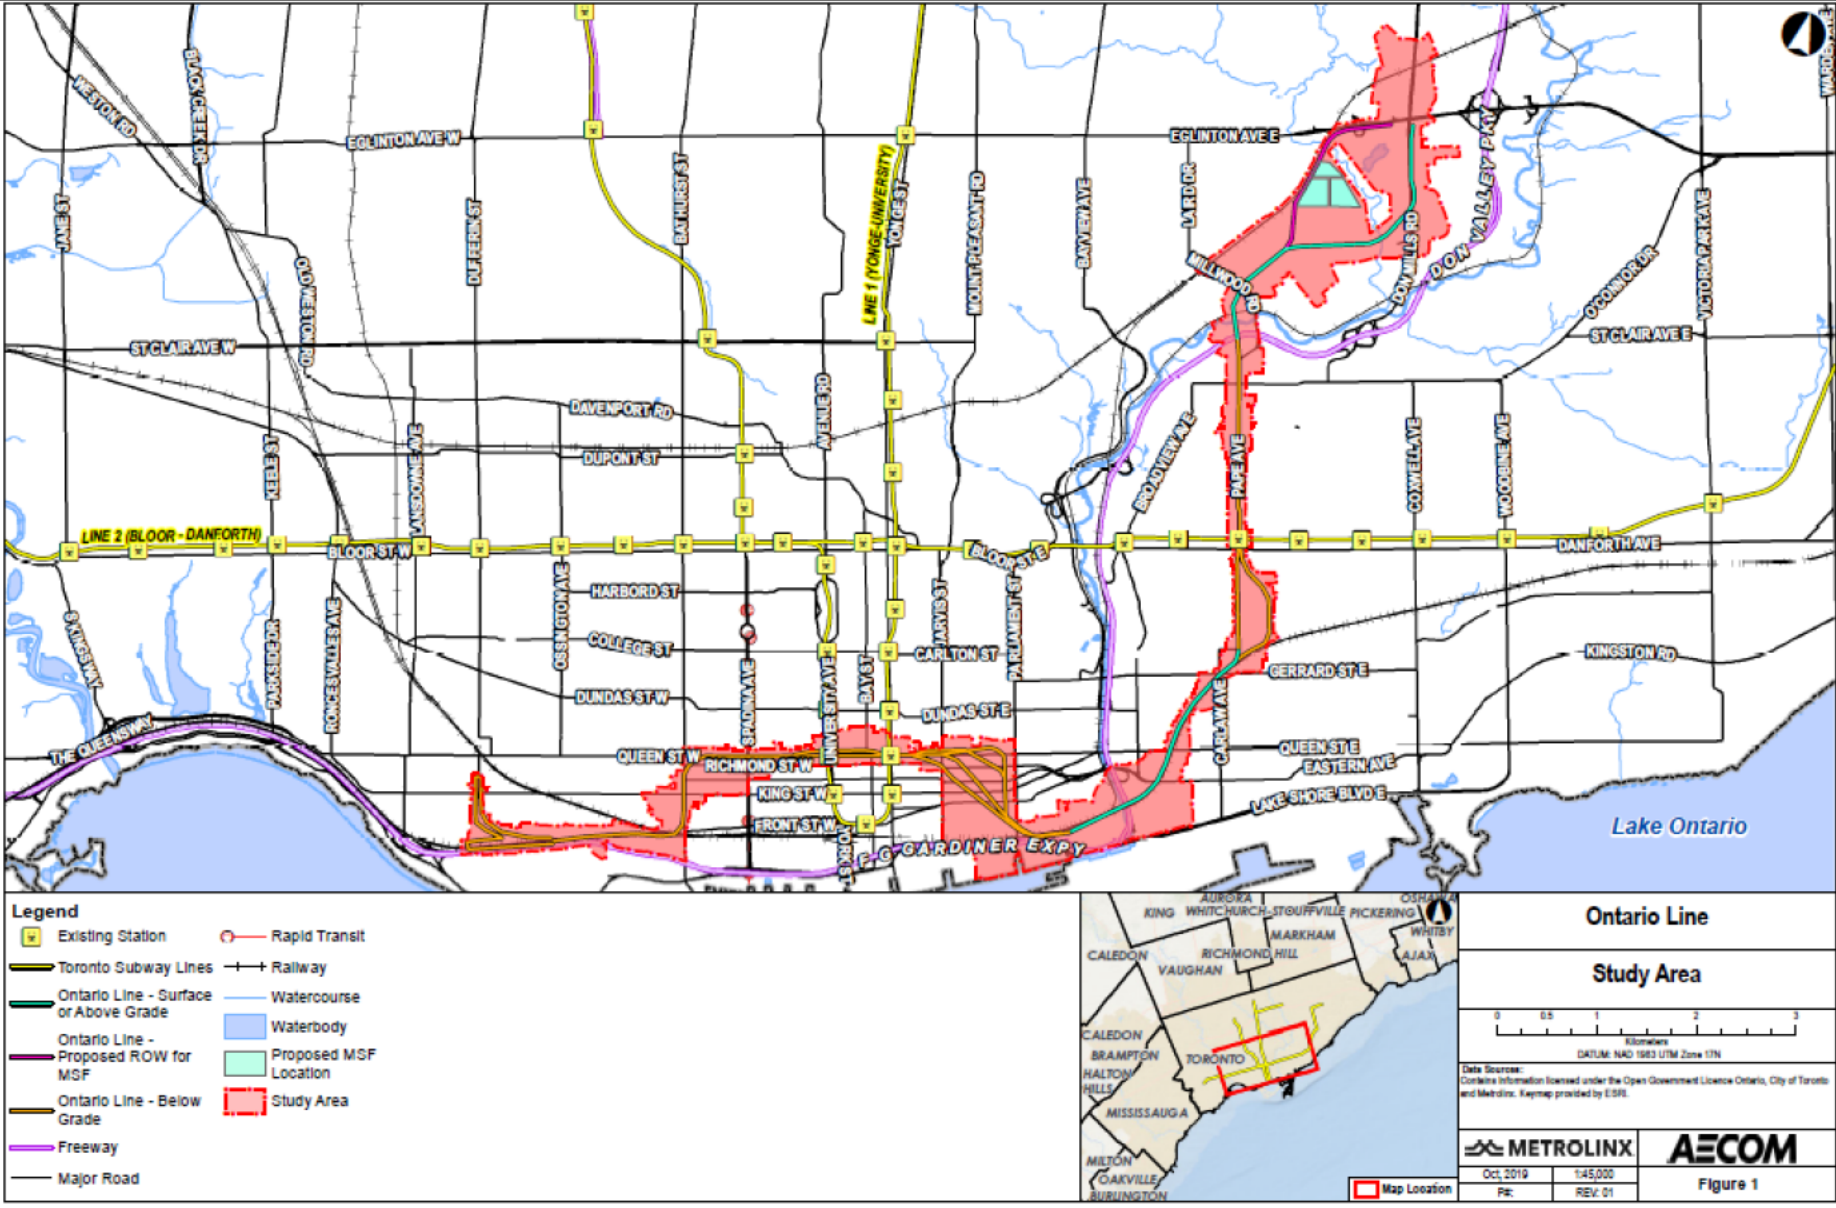

November, 2019

Project Background

- The Ontario Line is an approximately 16km free-standing subway, connecting Ontario Place/Exhibition through downtown Toronto to the Ontario Science Centre. This new line is part of the Province's directive that Metrolinx and Infrastructure Ontario lead the way in building more subways for the region.
- It features 15 potential stations, including six interchange stations adding 17 new connections to GO Transit, existing subways and surface transit.
- An Initial Business Case (IBC) was completed and released in July 2019. Metrolinx and Infrastructure Ontario continue to work with the City of Toronto to advance a Preliminary Design Business Case that will bring greater definition to the design, cost, and benefits of the project.

Hello Mr. Mellander,

Please appreciate that the Chief and Councillors of Kawartha Nishnawbe FN are all volunteers. Each of them is busy making a living to support their families while also devoting countless volunteer hours to their duties as leaders of their community. They have no funding whatsoever and no office or staff. In order to participate in your consultations they will either have to miss work or sacrifice evening and weekend time that they would otherwise spend working on the many critical issues facing their community every day. Under the circumstances they have had to make the difficult choice to not participate in consultations such as this.

Sincerely,

Christopher Reid

Subject: Ontario Line Subway Project

Good Afternoon,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network. More details about the project can be accessed here:
<http://www.metrolinx.com/en/greaterregion/projects/ontario-line.aspx>

I have attached a letter to this email that provides high level details of the project, which has also been sent to you by registered mail.

Metrolinx would appreciate any interest that your First Nation may have in these projects. We would

welcome the opportunity to provide more information and discuss any interests or questions that you may have. We understand that you may not have capacity to meet based on the last letter received from your counsel Christopher Reid on February 11th but are happy to support any engagement we can.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Miigwetch,

Fallon

Dear Sir/Madam,

Please find attached, a letter outlining the Notice of Publication of Draft Environmental Conditions Report for the Ontario Line Project. The link to access the report can be found here [REDACTED]

A copy of the formal Notice, and the impact and mitigation tables for this project have been attached. We hope these tables might help to streamline your review.
Comments and feedback are requested by October 17, 2020.

We appreciate the size of these documents. Please let us know if you would like a meeting to review the project with our environmental teams or speak to me further about best practices for engaging the MNO.

If you have any questions or concerns, please feel free to reach out to me at any time.

Miigwetch!

Fallon

Good afternoon,

Please find attached a letter detailing the report distribution schedule for the Ontario Line. The Ontario Line Environmental Conditions Natural Environment Report, discussed in the letter, can be found via the Dropbox link [REDACTED]

Metrolinx acknowledges the current climate of uncertainty as communities across Ontario, and Indigenous communities, in particular, are impacted by the COVID-19 pandemic. We recognize that community offices may be closed or have reduced capacity at this time. We are making efforts to ensure that communities can continue to be engaged and included in projects, while balancing the need to adhere to regulatory timelines. As such, please let us know if there are any ways that we can make this process easier or more accommodating.

Thank you,

Good Afternoon,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network.

More details about the project can be accessed here:

<http://www.metrolinx.com/en/greaterregion/projects/ontario-line.aspx>

I have attached a letter to this email that provides high level details of the project, which has also been sent to you by registered mail.

Metrolinx would appreciate any interest that the Metis Nation of Ontario may have in these projects. We would welcome the opportunity to meet with you to provide more information and discuss any interests or questions that you may have.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Early Works	Draft Early Works Natural Environment Report	June 4	20	July 2
	Draft Early Works Report	June 5	20	July 3

OL - EARLY WORKS

Early Works Locations

Scope of Work

Exhibition

- New passenger tunnels and vertical accesses
- Platform improvements

Lower Don Bridges

- Two (2) new OL bridges for the OL tracks and multi-use access

East Harbour Station

- Two (2) island platforms
- Platform access tunnels and vertical accesses
- Eastern Ave bridge replacement and expansion

Lakeshore East

- Rail corridor widening
- Two (2) bridges at Dundas St E, Queen St E and Logan Ave (total of 6)
- Noise Walls

OL - EARLY WORKS

The Early Works report details the existing conditions, predicted impacts, and potential mitigation measures on the Early Works Study Area:

- Exhibition Station
- Lower Don River Crossing
- East Harbour Station
- Lakeshore East Joint Corridor

Future commitments include:

- Nest checks for protected birds for any structures anticipated to be modified, disturbed, or replaced to facilitate the construction of the Early Works
- Assessment of potential impacts on fish and fish habitat within the Don River in support of a Fisheries and Oceans Canada (DFO) Request for Review (RfR)
- Complete all Stage 2 Archaeological Assessments (and Stage 3 if applicable), prior to completion of detailed design, and well in advance of any ground disturbance

Metrolinx and Mississaugas of the Credit First Nation Subways Program Meeting

DATE/TIME: June 11th, 2020 / 1:00 pm – 3:00pm
 LOCATION: Videoconference
 PREPARED BY: Metrolinx

IN ATTENDANCE (by phone)

MINUTES

TOPIC / COMMENTS

ACTION BY

Welcome and Introductions

- The purpose of this meeting was to discuss the Subways Program, and specifically the Ontario Line project. The meeting was chaired by Fallon Melander, Manager of Indigenous Relations at Metrolinx.
- Mark LaForme and Megan DeVries provided an overview of the Mississaugas of the Credit First Nation, the Department of Consultation and Accommodation and the Archaeological Field Liaison Representatives program.
- Metrolinx’s Environmental Programs and Assessments (EPA) group presented an overview of the Subways program, associated environmental assessments, as well as an overview of archaeology that has been completed to date.

MX – Indigenous Relations

Overview of MCFN, DOCA and the FLR Program

- Megan DeVries the provided an overview of the involvement of DOCA and FLRs in projects – she indicated that all Stage 2 Archaeological Mx project work would require the involvement of FLRs. She also indicated that the reports that have been sent to MCFN on the Subways have not been reviewed due to the COVID-19 crisis and the direction by the MCFN Chief and Council.
 - Mark LaForme commented that including field monitors in project work is considered a small ‘a’ accommodation; mentioned that project notification letters should come to Fawn, with only Mark being cc’d and not the chief as it presents an inefficiency
- ACTION ITEM:** Mx to note that Chief LaForme should not be cc’d on Metrolinx correspondence in the future

Overview of Subway Program

[REDACTED]	
<div> <div></div> <div>[REDACTED]</div> </div>	
Next Steps	
<ul style="list-style-type: none"> Mark LaForme thanked Metrolinx for the presentation and reiterated that MCFN would like to be involved in any archaeology. He commented on future environmental assessments work, and expressed interest in being involved. He noted that DOCA is working on a process to issue notice of receipt on project notification letters, but until that time, they do not mind follow up calls. 	

*Please contact Metrolinx (IndigenousRelations@metrolinx.com) within seven (7) days of issuance of these minutes for any errors or omissions.

Hi again Fallon,

It just dawned on me and feel the need to clarify about my previous email and what I stated about the Six Nations CAP team not being able to respond to Metrolinx reports by expected deadlines, I should have mentioned that this does not include the archaeology component.

Tanya is in charge of that aspect and I think she plans to be involved in archaeology work and reading reports but she will clarify more on that if needed.

Hi Jen,

Thank you for your email. I wanted to let you know that I have brought Robin's letter and this follow up to Metrolinx's Community Relations Vice President to ensure that there is an understanding of the issues and capacity pressures at hand given the volume of reports and projects that Metrolinx is undertaking. I also am reinforcing the message to Metrolinx about the need for meaningful engagement and consultation with those whose Treaty territories Metrolinx projects are impacting.

I look forward to meeting on October 20th and will ask for my Vice President to be present so that she can also hear and understand the issues and concerns and so that Metrolinx can move forward in a good way.

Miigwetch,

Fallon

Subject: RE: Ontario Line Project - Notice of Publication of Draft Environmental Conditions Report

Hi Fallon,

So the letter that Robbin provided this afternoon is our current stance on Metrolinx Projects (essentially this is going to be sent out as a “blanket statement” on future projects, not just Metrolinx). It basically outlines and affirms our treaty territories and Indigenous rights as Haudenosaunee people as well as our concern for any developments that takes place within our treaty lands especially in terms of adverse impacts to said environment which would include: lands, waters, animal/plant/aviary/water life.

Having said that and something we’ve already discussed at our last meeting is due to the extremely large volume of reports and studies coming in to the Six Nations CAP team (which total thousand of pages) on Metrolinx projects, we currently do not have the resources or the capacity to be reading through each document.

In order to submit a well thought out and thorough response to these individual Metrolinx projects, we’d have to take the time to read thoroughly through all of the technical documents. As Metrolinx has already implied that they have not set aside any additional funding for Indigenous communities to be able to better participate in these projects (however they did say they are looking into it further), we cannot meet these upcoming deadlines to provide feedback.

This is not to say either that because we were unable to provide responses/feedback on each of these projects, that we are agreeable to or supportive of them and that needs to be documented. We cannot make that decision on whether or not we can support these projects because we do not have the resources to be able to analyze all of the technical documents.

With that being said, please take this email response into consideration when reading the letter that Robbin has already provided.

We can definitely discuss this further at our October 20 meeting and answer any concerns or questions you may have.

Have a great day,

jen

Subject: RE: Ontario Line Project - Notice of Publication of Draft Environmental Conditions Report

Hello Lonny and Team,

Please find attached, a letter outlining the Notice of Publication of Draft Environmental Conditions Report for the Ontario Line Project. The link to access the report can be found here: [REDACTED]

A copy of the formal Notice, and the impact and mitigation tables for this project have been attached. We hope these tables might help to streamline your review.

Comments and feedback are requested by **October 17, 2020**.

We appreciate the size of these documents. Please let us know if you would like a meeting to review the project with our environmental teams or speak to me further about best practices for engaging your community.

If you have any questions or concerns, please feel free to reach out to me at any time.

Miigwetch!
Fallon

Good Morning Mr. Bomberry,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network. I have attached a letter to this email that provides high level details of the project.

As detailed within the letter, Early Works Reports are available for your review at the following links:

- Early Works Report: [REDACTED]
- Early Works Natural Environment Report: [REDACTED]

If you have any comments on these reports, please share them by August 31, 2020.

Metrolinx would appreciate any interest that your First Nation may have in this project and would welcome the opportunity to meet with you to provide more information and discuss any interests or questions that you may have.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Miigwetch,

Fallon

Good afternoon Chief Dave Mowat,

As per the document distribution schedule presented in Metrolinx's June 3rd letter, please find the Ontario Line Draft Environmental Conditions Report [REDACTED] via Dropbox. Any comments on the report are requested by **July 10th**.

As previously communicated, Metrolinx acknowledges the current climate of uncertainty as Indigenous communities are impacted by the COVID-19 pandemic. Please let us know if there are any ways that we can make the review process easier or more accommodating during this time.

Please let us know if you have any questions or have trouble accessing the document.

Thank you,

Crystal Ho

Good afternoon Chief Donna Big Canoe,

As per the document distribution schedule presented in Metrolinx's June 3rd letter, please find the Ontario Line Draft Environmental Conditions Report [REDACTED] via Dropbox. Any comments on the report are requested by **July 10th**.

As previously communicated, Metrolinx acknowledges the current climate of uncertainty as Indigenous communities are impacted by the COVID-19 pandemic. Please let us know if there are any ways that we can make the review process easier or more accommodating during this time.

Please let us know if you have any questions or have trouble accessing the document.

Thank you,

Crystal Ho

Good afternoon Chief Donna Big Canoe,

As discussed in our June 3rd correspondence, Metrolinx would like to share the draft Ontario Line Early Works Natural Environment Report with your community for review. The report may be accessed via Dropbox [REDACTED]

We are requesting comments on the report by July 2nd, 2020. However, as mentioned previously, Metrolinx acknowledges the current climate of uncertainty as communities across Ontario, and Indigenous communities, in particular, are impacted by the COVID-19 pandemic. As such, please let us know if there are any ways that we can make this process easier or more accommodating.

Thank you,

Good morning Chief Donna Big Canoe,

Please find attached a letter detailing the report distribution schedule for the Ontario Line. The Ontario Line Environmental Conditions Natural Environment Report, discussed in the letter, can be found via the Dropbox link [REDACTED]

Metrolinx acknowledges the current climate of uncertainty as communities across Ontario, and Indigenous communities, in particular, are impacted by the COVID-19 pandemic. We recognize that community offices may be closed or have reduced capacity at this time. We are making efforts to ensure that communities can continue to be engaged and included in projects, while balancing the need to adhere to regulatory timelines. As such, please let us know if there are any ways that we can make this process easier or more accommodating.

Thank you,

Kuru Satkunanathan

Good Afternoon,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network.

More details about the project can be accessed here:

<http://www.metrolinx.com/en/greaterregion/projects/ontario-line.aspx>

I have attached a letter to this email that provides high level details of the project, which has also been sent to you by registered mail.

Metrolinx would appreciate any interest that your First Nation may have in these projects. We would welcome the opportunity to meet with you to provide more information and discuss any interests or questions that you may have.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Miigwetch,

Fallon

Subject: Ontario Line - Draft Environmental Conditions, Natural Environment Report

Good morning Chief Emily Whetung,

Please find attached a letter detailing the report distribution schedule for the Ontario Line. The Ontario Line Environmental Conditions Natural Environment Report, discussed in the letter, can be found via the Dropbox link [REDACTED]

Metrolinx acknowledges the current climate of uncertainty as communities across Ontario, and Indigenous communities, in particular, are impacted by the COVID-19 pandemic. We recognize that community offices may be closed or have reduced capacity at this time. We are making efforts to ensure that communities can continue to be engaged and included in projects, while balancing the need to adhere to regulatory timelines. As such, please let us know if there are any ways that we can make this process easier or more accommodating.

Thank you,

Kuru Satkunanathan

Subject: Ontario Line Subway Project
Date: February 12, 2020 1:28:27 PM
Attachments: [Ontario Line - Letter Curve Lake First Nation.pdf](#)
[image001.png](#)

Good Afternoon,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network.

More details about the project can be accessed here:

<http://www.metrolinx.com/en/greaterregion/projects/ontario-line.aspx>

I have attached a letter to this email that provides high level details of the project, which has also been sent to you by registered mail.

Metrolinx would appreciate any interest that your First Nation may have in these projects. We would welcome the opportunity to meet with you to provide more information and discuss any interests or questions that you may have.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Miigwetch,

Fallon

July 15, 2020

Ontario Line

What is the Ontario Line?

The Ontario Line will make it faster and easier for hundreds of thousands of people to get where they need to be each day, whether they ride the line or not. It will be more than just a subway to alleviate crowding on TTC Line 1 - it will be a link to communities across Toronto. From east to west, north to south, from Ontario Place to the Ontario Science Centre, there's never been a connection in the heart of the city like this one will be. Getting downtown from previously underserved areas such as Thorncliffe Park and Flemingdon Park will be a breeze, travel times across the city will be shorter and trains will arrive more frequently. When every minute counts, getting this time back will free up time in people's schedules for the things that matter.

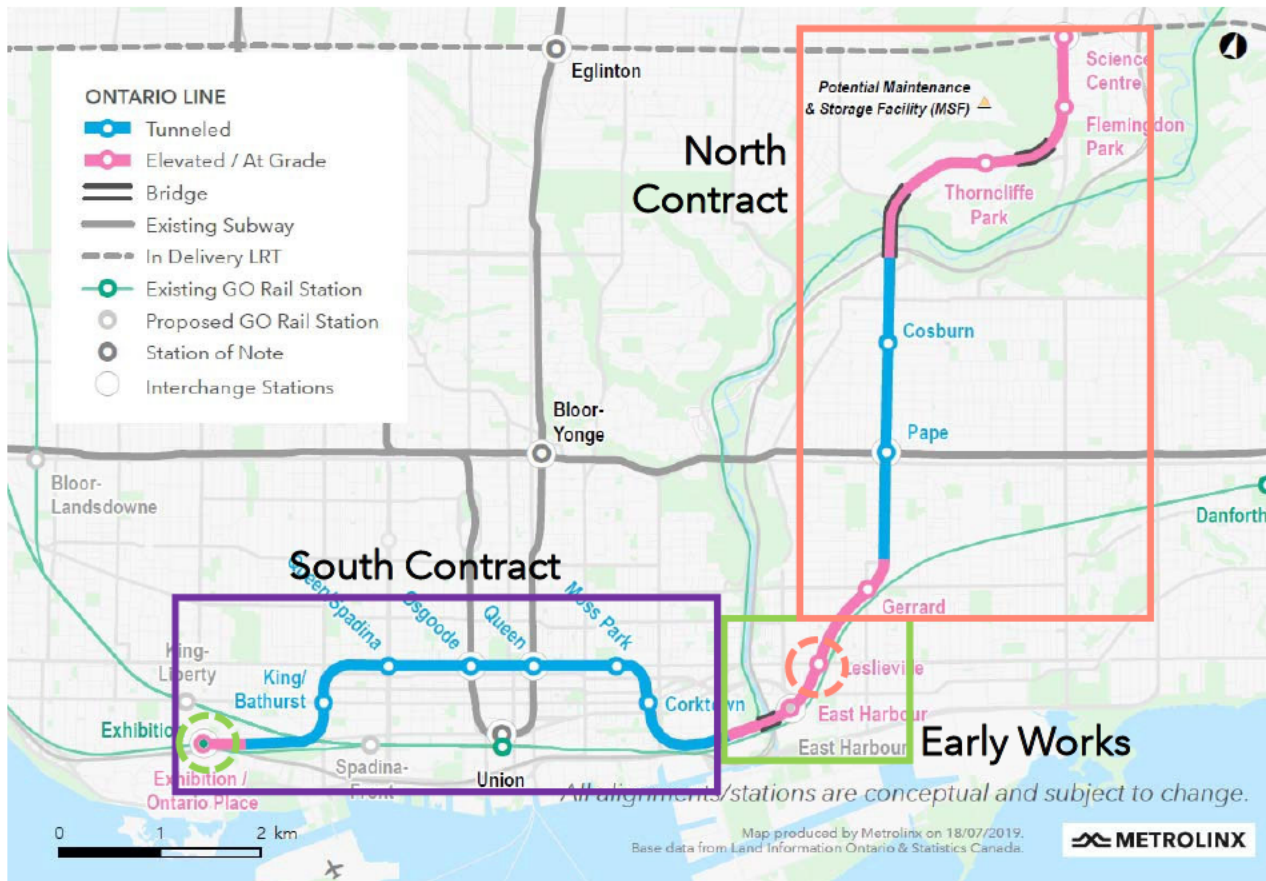

Number of proposed stations	15
Number of connections to other transit options	17 <ul style="list-style-type: none"> • 3 GO lines • 4 connections to Line 1, 2 and 5 (Eglinton Crosstown) • 10 connections to King, Queen, Bathurst, Spadina, Harbourfront and Gerrard/Carlton streetcars
Approximate number of route kilometres	15.5 km
Ridership	389,000 daily boardings
Frequency	As frequent as every 90 seconds
Access to transit	154,000 more people within walking distance to transit
Access to jobs	53,000 more jobs accessible in 45 minutes or less for Toronto residents

PROJECT STATUS UPDATE

- Planning for the project continues, including surveying and geotechnical investigation, to further refine the design and engineering options.
- Environmental investigations are underway, including studies on noise and vibration for joint corridor
- Further information, including more details about the alignment and stations as well as initial environmental reports, will be available in the summer. Public engagement will be held online.
- Pending procurement decisions and final environmental reports, Early Works in the joint corridor are anticipated to begin in 2021.

ONTARIO LINE PROCUREMENT PACKAGES

First two Ontario Line Request for Qualifications released in early June.

Request for Proposals are anticipated to be released in the Fall.

Three main procurement packages: North, South and the Rolling Stock, Systems, Operations and Maintenance Contract.

In addition to the three main P3 contracts, there will also be a series of Early Works projects for bridge, track and other preparatory activities to help advance the delivery of the Ontario Line.

Hi Jaimi,

Just noticed that we received the email below from the new Community Consultation Specialist of the Mississaugas of Scugog Island First Nation. I've also drafted the following response email. Let me know if you have any comments before I sent it out, thanks!

Hi Michael,

My apologies for the late response. We previously circulated a letter to your community which provided information on the Ontario Line Project, as well as the associated reports. I have attached this letter and the appendices to this email for your reference. Please note that the Ontario Line Regulation referenced in the letter has been approved and can be reviewed here: <https://www.ontario.ca/laws/regulation/r20341>.

The letter also noted that draft Ontario Line Reports will be submitted to the Mississaugas of Scugog Island First Nation for review. To date, we have circulated the following Ontario Line Early Works and Environmental Conditions Report:

- Environmental Conditions Natural Environment Report:

[REDACTED]
[REDACTED]

- Early Works Natural Environment Report:

[REDACTED]
[REDACTED]

- Early Works Report:

[REDACTED]

- Environmental Conditions Report:

[REDACTED]
[REDACTED]

The reports can be accessed via the Dropbox links provided above. Please let us know if you have any comments on these draft reports at your earliest convenience. Metrolinx acknowledges the current climate of uncertainty

as Indigenous communities are impacted by the COVID-19 pandemic. If there are any ways that we can make the review process easier or more accommodating during this time, please let us know. Feel free to reach out if you have any questions as well.

Thank-you,

Crystal Ho

We are requesting comments on the report by July 2nd, 2020. However, as mentioned previously, Metrolinx acknowledges the current climate of uncertainty as communities across Ontario, and Indigenous communities, in particular, are impacted by the COVID-19 pandemic. As such, please let us know if there are any ways that we can make this process easier or more accommodating.

Thank you,

Kuru Satkunanathan

Subject: Ontario Line - Draft Environmental Conditions, Natural Environment Report

Good afternoon Chief Kelly LaRocca,

Please find attached a letter detailing the report distribution schedule for the Ontario Line. The Ontario Line Environmental Conditions Natural Environment Report, discussed in the letter, can be found via the Dropbox link [REDACTED]

Metrolinx acknowledges the current climate of uncertainty as communities across Ontario, and Indigenous

communities, in particular, are impacted by the COVID-19 pandemic. We recognize that community offices may be closed or have reduced capacity at this time. We are making efforts to ensure that communities can continue to be engaged and included in projects, while balancing the need to adhere to regulatory timelines. As such, please let us know if there are any ways that we can make this process easier or more accommodating.

Thank you,

Kuru Satkunanathan

Attachments: [REDACTED]

Good morning Chief LaRocca,
Please find attached a letter requesting feedback on the Ontario Line Stage 1 Archaeological Assessments (North, South and West). The draft Stage 1 Archaeological Assessments can be found [h](#) [REDACTED] via Dropbox. We are looking for your community's comments to be provided by end of day, April 24. Please let me know if you have any questions.

Kind Regards,

MERLIN YUEN

[Ontario Line - Letter_Mississaugas of Scugog First Nation.pdf](#)

Good Afternoon,

Metrolinx in partnership with Infrastructure Ontario is proposing to build a 16km subway line in downtown Toronto which will expand and build upon the existing and planned transit network.

More details about the project can be accessed here:

<http://www.metrolinx.com/en/greaterregion/projects/ontario-line.aspx>

I have attached a letter to this email that provides high level details of the project, which has also been sent to you by registered mail.

Metrolinx would appreciate any interest that your First Nation may have in these projects. We would welcome the opportunity to meet with you to provide more information and discuss any interests or questions that you may have.

I am happy to speak in person or by telephone if you require further information as I hope to make this process as open and respectful for your community.

Please do not hesitate to contact me.

Miigwetch,

Fallon
