

## Notice of Publication of Final Environmental Conditions Report Ontario Line Project

### The Project

The Ontario Line will bring nearly 16 kilometres of new subway service to Toronto to make it faster and easier for people to get where they need to be each day. The line will stretch across the city, from the Ontario Science Centre in the northeast to Exhibition/Ontario Place in the southwest. The Ontario Line is proposed to include 15 potential stations, including six interchange stations, and connections to three GO train lines, two existing subway lines, the new Eglinton Crosstown LRT, and streetcar lines at 10 of its stations. The project will feature a combination of tunneled, surface and elevated segments, and will be completely separated from traffic to provide fast and reliable commutes.

### Environmental Assessment

Environmental impacts of the Ontario Line project have been assessed in accordance with Ontario Regulation (O. Reg.) 341/20: Ontario Line project, effective June 30, 2020, under the Environmental Assessment Act. As outlined in Section 4 of O. Reg. 341/20, Metrolinx prepared a Draft Environmental Conditions Report (ECR) that was available for public review from September 17 to October 17, 2020.

The Draft ECR characterized existing environmental conditions within the Ontario Line study area. This report also provided a preliminary description of potential impacts the project may have on the environment, potential mitigation and monitoring activities, and a description of future studies that may be carried out as part of the Early Works Report(s) and/or Environmental Impact Assessment Report. Public comments received throughout the comment period for the Draft ECR were recorded and have been incorporated into the Final ECR.

## **The Final ECR**

In accordance with Section 7 of O. Reg. 341/20, Metrolinx has updated the Draft ECR and published the Final ECR. Effective **November 30, 2020** the Final ECR will be available on the project webpage ([www.metrolinx.com/ontarioline](http://www.metrolinx.com/ontarioline)).

To obtain a copy of the Final ECR, please contact the project email listed below.

*All personal information included in a submission - such as name, address, telephone number and property location - is collected, maintained and disclosed by Metrolinx for the purpose of transparency and consultation. The information is collected under the authority of O. Reg. 341/20 under the Environmental Assessment Act or is collected and maintained for the purpose of creating a record that is available to the general public as described in s. 37 of the Freedom of Information and Protection of Privacy Act. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, please contact [ontarioline@metrolinx.com](mailto:ontarioline@metrolinx.com) or 416-874-5900.*
