Subject: Guelph Margaret green park

Hello
I would like to comment on this proposal that:

- 1-The land was donated to the city with the clear condition of using it as a park
- 2-The original study that was the base of Metrolinx analysis marked this area as "empty land", which was absolutely incorrect, that should deem that study not valid.

Please do not take this park, nobody uses Metrolinx in the suburbs anyway! It is a waste of money.

Sincerely
Claudia Espindola
