

# Groundwater and Surface Water Sampling along Eglinton Ave. West from Scarlett Road to Emmett Ave.

May 17- May 19, 2022

The Eglinton Crosstown West Extension is one of four new subway projects that will transform transit in our region; getting hundreds of thousands of people where they need to be, better, faster and easier than today.

## WHAT WORK IS HAPPENING HERE?

Groundwater samples will be collected from five monitoring wells located along Eglinton Avenue West, beginning just west of Scarlett, to Emmett Avenue. Samples will be collected using portable pumps, powered by battery packs. All equipment is portable. One surface water sample will be collected from the Humber River. Staff will walk to the River, and collect samples from the river bank.

## HOURS OF WORK:

- Staff will be onsite between May 17 and May 19, 2022 from 8am to 5pm
- Work may be rescheduled or extended due to weather conditions or unforeseen circumstances.

## WHAT TO EXPECT:

- Impacts to traffic will be minimal. Short-term (~1hour) lane diversions may occur in the north, westbound lanes of Eglinton Avenue West.
- Pedestrian paths will be kept clear
- No vegetation will be affected
- No large equipment will be used
