

Overnight Work: Construction of Site Access Road near Bremner Blvd.

July 11-15 and 18-22, 2022

Figure 1: Map showing the approximate work area for the Union Station Enhancement Project (USEP) and the overnight work area close to Bremner Blvd.

Background

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a heavy rail commuter service into an all-day, urban rapid system.

Work has already started at Union Station to get you where you need to go, better, faster, and easier. The Union Station Enhancement Project (USEP) is being completed in phases to deliver the required infrastructure needed to enable two-way, all-day service every 15 minutes or better along core segments of the GO rail network. The USEP includes the design and construction of transit infrastructure and upgrades at the southernmost part of Union Station.

What work is taking place?

Metrolinx is using the west side of the looped driveway of the Metro Toronto Convention Centre, near Bremner Blvd, as a primary access route for USEP construction vehicles. Please refer to the map on page 1 for the approximate work areas. Modifications are being made to the existing laneway to construct a site access road that will accommodate construction vehicles.

For more information on the Union Station Enhancement Project, please visit:

www.metrolinx.com/UnionStation

Timing and what to expect

- Work will take place overnight between July 11-15 and 18-22, 2022.
- Work is taking place overnight to minimize impacts to pedestrians in this busy area.
- Residents and businesses near the work site can expect to hear noise caused by trucks and other equipment. Every effort will be made to minimize disruptions.

Long-term local benefits to the community

- Two new wide platforms with canopies and two new tracks, will increase safety and capacity to serve more and get you where you need to go faster.
- A more modernized and convenient open concept south passenger concourse will provide smoother, easier customer connections.

Questions

If you have any questions about this work or would like to be included on future email communications from us, please call us at 416-202-6911 or email us at

TorontoWest@metrolinx.com

When near construction areas, please be safe and respect all safety measures in place. Thank you for your patience as we work to transform the rail corridor in your area.
