Capital Projects Update

Stephanie Davies - Executive Vice President, Capital Projects Group

Neil Lindley - Vice President, Union Station Rail Corridor GO Expansion

Sharyn Byrne-Nearing - Director, Brand and Digital Marketing

NOVEMBER 2020

EXECUTIVE SUMMARY

The purpose of this report - for information - to share a progress update on significant capital project delivery:

- Cooksville: 750+ net new spots, bringing the total number of parking at the station to more than 2,500 spaces
- Kipling: New bus terminal for GO and MiWay bus service, with a pedestrian bridge over the train tracks to connect the new bus terminal to the GO train platform and create an accessible access for the rail station
- Union Station Bus Terminal will have 14 bus bays - twice as many as the current bus terminal
- At Union station, the total concourse area will more than triple in size - from 40,000 sq. ft. (the former Bay Concourse) to 123,000 sq. ft. (the total of the new York Concourse, which is 62,000 sq. ft. plus the addition of the revitalized Bay Concourse)
- Extending Richmond Hill line to the new Bloomington Station with 3-level parking structure with 760 parking spaces in addition to 238 surface parking spaces, as well as 6 bay bus loop for local transit connections, a bike lane and bike shelters with direct access to the platform, to keep you safe and connected

With all this progress all over the place we are letting our customer residents know that, even in a challenging time, we haven't stopped the progress. Our integrated marketing and communications platform - It's Happening - relaunched this Fall with the addition of on-the-ground public education support.

COOKSVILLE GO STATION

- First of nine early works P3s to reach substantial completion
- Six-level parking structure with 1,800 new spots, new station building, pedestrian bridge and platform upgrades
- Will connect GO, MiWay & the future HuLRT

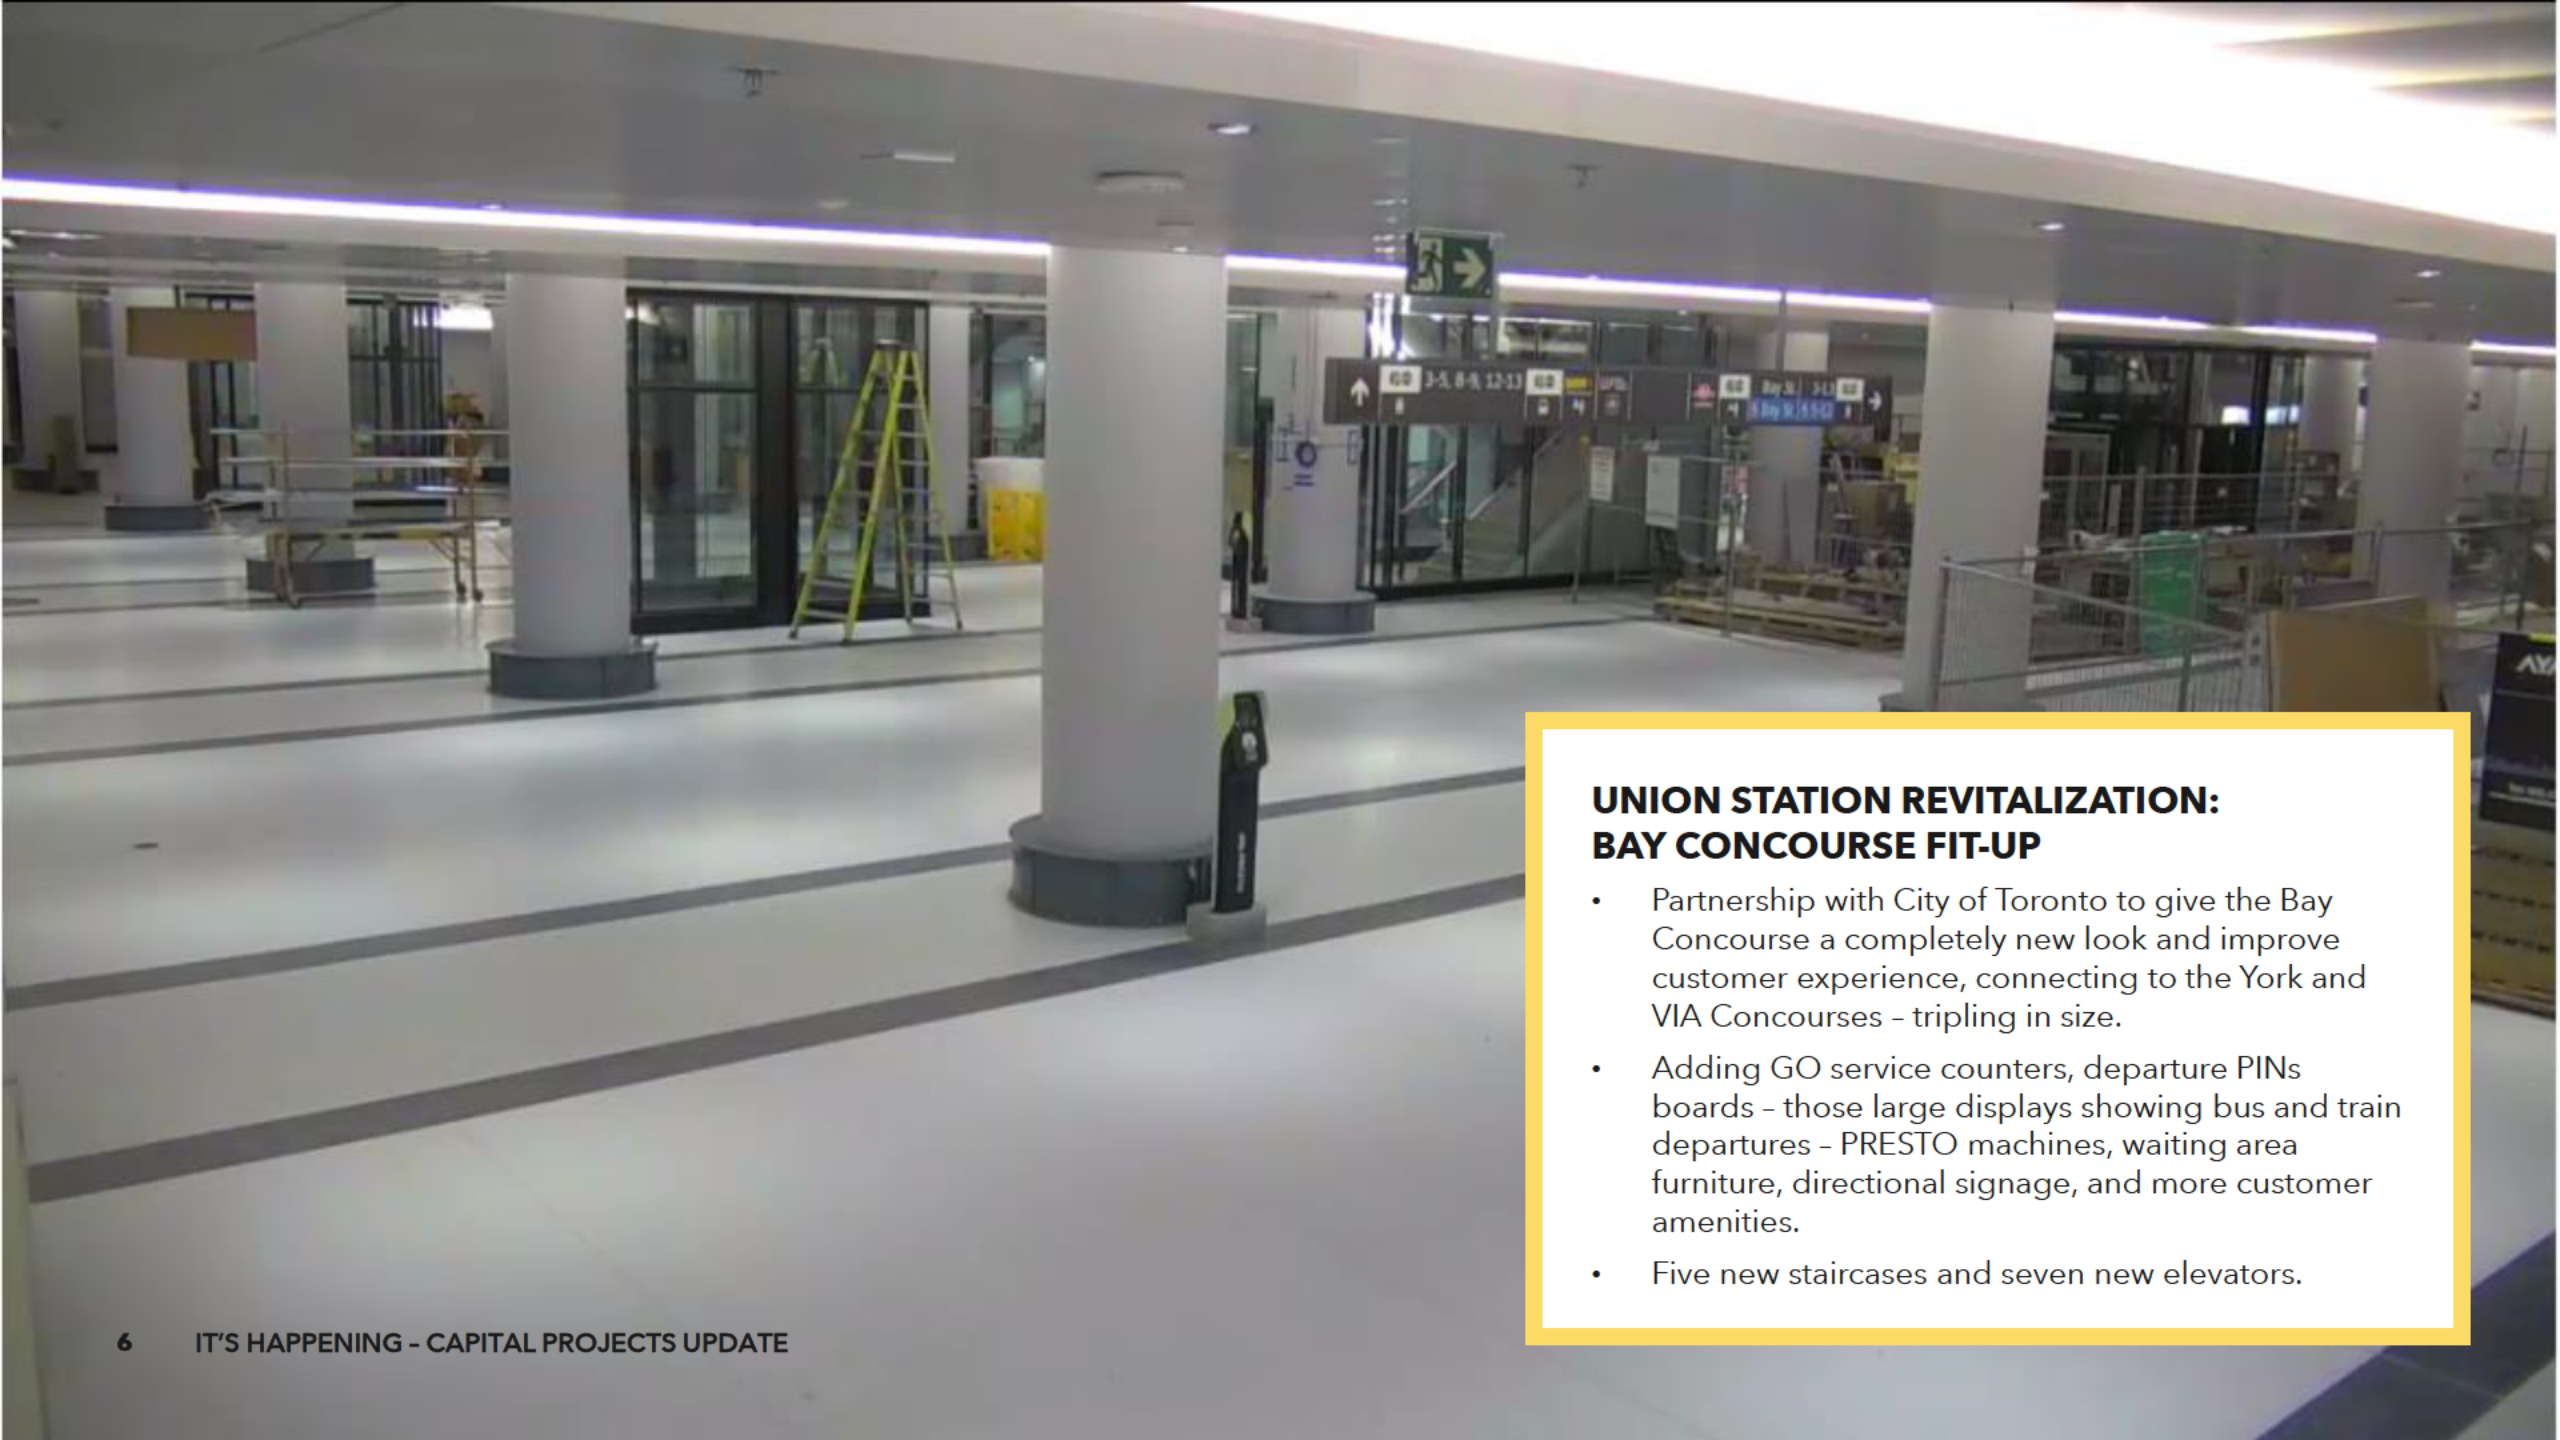

KIPLING BUS TERMINAL

- GO Rail Customer boardings per year: 178,000
- Regional mobility hub of GO Rail, GO Bus, MiWay, TTC subway, TTC buses, and TTC parking
- New regional bus terminal, plus new parking lot, renovated pick up and drop off areas, new pedestrian bridge connecting with rail platform
- Recent milestones: tunnel linking terminal and subway station; Interior fit-out is ongoing; Green roof is complete; building is watertight; Subway Crescent curbs and base asphalt is complete

UNION STATION BUS TERMINAL

- Partnership with Ivanhoe Cambridge/Hines in development of two towers, 81 Bay Street housing the new Union Station Bus Terminal
- GO Transit runs 485 bus trips weekday out of Union Station Bus Terminal, transporting 13,600 weekday riders
- Terminal will have 14 bus platforms on two levels
- Development will contain a park overtop the rail corridor
- Fit-out by Metrolinx contractor now underway

UNION STATION REVITALIZATION: BAY CONCOURSE FIT-UP

- Partnership with City of Toronto to give the Bay Concourse a completely new look and improve customer experience, connecting to the York and VIA Concourses - tripling in size.
- Adding GO service counters, departure PINs boards - those large displays showing bus and train departures - PRESTO machines, waiting area furniture, directional signage, and more customer amenities.
- Five new staircases and seven new elevators.

BLOOMINGTON GO STATION

- Forecasted Completion December 2020, in service early 2021
- Forecasted customer boardings per year: 253,000
- Located at Highway 404 & Bloomington Road
- 998 parking spaces, bike shelters, PPUDO, bus loop, LEED Gold certified station building, better lighting, and clearer signage

BRINGING PROGRESS TO LIFE IN OUR REGION AND COMMUNITIES

Keeping our Customer Residents in the know on progress through:
