

# Geotechnical Instrumentation and Monitoring Program in the Queen and University area

Starting June 2022

**What is happening?**  
 To advance design concepts and other structural plans for the Ontario Line, Metrolinx will be establishing a Horizontal Control Network that will be utilized for the Geotechnical Instrumentation and Monitoring Program.

## Timing

- **Scheduled start:**  
June 2022
- **Scheduled completion:**  
March 2023
- **Days:**  
Monday to Saturday
- **Weekday Hours:**  
8:00am- 5:00pm
- **Weekend Hours:**  
9:00 am – 4:30 pm

## What to expect

- A three-person crew will be visiting locations along Queen, Simcoe, St. Patrick, University, Duncan and Pullan Place to establish a horizontal control network (a series of survey points) that will be utilized for the Geotechnical Instrumentation & Monitoring Program.
- Geotechnical monitoring instruments are installed in the vicinity of the station construction to monitor the ground conditions once construction is underway.
- Equipment will not be left on-site outside of work hours.
- While sidewalks will remain open there will be temporary impacts and diversions for pedestrians.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances.

## The Ontario Line

15.6 kilometres of transit service

Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
