

Aerial Survey Operation

Douro Street to Eastern Avenue within the Rail Corridor – Dec 19th, 2022 to Feb 3rd, 2023

An aerial image showing the area of operation.

The zone depicted is approximate and for illustrative purposes only.

Project Overview

Metrolinx's GO Expansion program is delivering more GO service across the network, including trains every 15-minutes or better on key segments of the network.

To support GO Expansion, we are upgrading the rail network and our GO stations to bring you more frequent and fully accessible service.

What is Happening?

As part of investigative work for the GO Expansion project, a Remote Piloted Aircraft (RPAS/Drone) will perform aerial surveys along the rail corridor. The drone will capture images and data for pre-engineer design mapping. This survey will support the design of future track and infrastructure updates.

Hours of Work

The survey is expected to take place between the hours of 8:00 a.m. and 5:00 p.m. December 19, 2022 to February 3, 2023.

Work may be rescheduled or extended due to weather conditions or unforeseen circumstances.

What to Expect

The drone will be flown over the rail corridor between the limits of Douro Street and Eastern Avenue within the rail corridor. There will be staff on-site conducting and monitoring the operation.

Traffic & Pedestrian Details

No impacts to traffic or pedestrian routes are anticipated during this work.

Transit Information

No impacts to public transit are anticipated during this work.

Community Engagement

We are improving transit in your community. You may have questions or need to get in touch with us as work progresses. Metrolinx has a dedicated community engagement team in place that works with residents and businesses.

Information as of December 5, 2022
