## Project Overview

Metrolinx's GO Expansion program is delivering more GO service across the network, including trains every 15-minutes or better on the Barrie GO Rail Corridor. This includes a brand-new GO station at Eglinton Avenue West and Caledonia Road.

Caledonia GO Station will be directly integrated with the Eglinton Crosstown LRT and TTC buses. Customers will experience a seamless transition between services, giving them more options for getting around. Features at the new station include a new platform, heated shelters, bicycle parking, and accessible pedestrian connections.

## What is Happening?

As part of early works for the Caledonia GO station, crews will be drilling vertical boreholes to complete a geotechnical investigation in the rail corridor, west of the future site of the Caledonia GO station. The investigation activities will inform future construction work.

## Hours of Work

There may be some limited day work, expected to take place Monday to Friday between 7:00 a.m. and 5:00 p.m.

Overnight work will be required for safety when there is no train activity, and is expected to take place Monday to Saturday between 11:00 p.m. and 5:00 a.m.

Work may be rescheduled or extended due to weather conditions or unforeseen circumstances.

## What to Expect

Crews will use a track mounted drill rig to perform the investigation works. The work zone will be safely delineated.

Customers and residents may experience some noise and vibration from construction

vehicles and equipment. Site lighting will be positioned away from residential properties. Site-based noise mitigation measure will be implemented to minimize the disruption as much as possible.

## Traffic & Pedestrian Details

No impacts to motorists, cyclists, or pedestrians are anticipated during this work.

## Transit Information

No impacts to TTC, or other public transit modes are anticipated during this work.

## Community Engagement

We are improving transit in your community. You may have questions or need to get in touch with us as work progresses. Metrolinx has a dedicated community engagement team in place that works with residents and businesses in the Toronto West area. Contact us using the information found below.
