

Overnight construction in the rail corridor between Parliament & Cherry Street and beside Corktown Commons

Timing

- **Scheduled start:**
February 27, 2023
- **Scheduled completion:**
March 16, 2023
- **Days:** Monday to Thursday
- **Hours:**
Overnight between 9 p.m. - 4 a.m.

What to expect

- Crews are working as quickly as possible to relocate fibre utility cables.
- Due to trains running during the day, the only time this critical work can take place safely is overnight, when trains are not running.
- The typical method of construction for this type of work would include an excavator. However, due to the complexity of the work and confined working space, a hydrovac truck is the only option available to complete this work.
- Hydrovac excavation is when high pressure water is used to break up soil.
- Residents will hear loud noises from hydrovac trucks during overnight hours.
- Work crews have been instructed to minimize the use of hydrovac equipment where possible.
- While crews began this overnight work in January 2023, the work has moved further west in the rail corridor.
- **Work is expected to resume in the area shown on February 27, 2023.**
- We sincerely apologize for the disturbance and inconvenience. Work may be extended, delayed or rescheduled due to inclement weather or unforeseen circumstances.
- For any questions or concerns, please contact the Metrolinx Community Engagement office by email or phone (contact information listed below).

The Ontario Line

-  15.6 kilometres of transit service
-  Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
