

# Ongoing Track Work near West Harbour GO

February 27, 2023

## Project Overview

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

## What You Need to Know

The ongoing track work near the West Harbour GO Station will enable expanded GO rail service to the future Confederation Station in East Hamilton, and beyond to Niagara Falls. As part of this work, crews are relocating underground utilities to make room for new track that will be joined to the main line track just past the Mary Street bridge. This project also includes work to strengthen the footings on the James Street Bridge over the rail corridor.

### WHAT TO EXPECT

- Ongoing construction will continue this year with work expected to be complete early in 2024. Construction timing is subject to change.
- Noise impacts are expected during the bridge work.

### HOURS OF WORK

- Construction is scheduled during weekdays. At this time, there is no evening, overnight or weekend work scheduled but that is subject to change.

### TRAFFIC DETAILS

- No traffic impacts are expected.

### PEDESTRIAN DETAILS

- There are no pedestrian impacts expected at this time.

### TRANSIT INFORMATION

- GO rail service will not be impacted by the construction.
