

# Major Track Closure and Train Transfer - GO Trains Running on Elevated Guideway as of March 27

Friday March 24 at 23:00 - Monday March 27 at 04:00

## Project Overview

The Davenport Diamond Guideway project supports Metrolinx's GO Expansion program, enabling two-way, all-day frequent service on the Barrie GO Line.

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

## What You Need to Know

*Track work and signals work for weekend train transfer, in the Metrolinx corridor, from 600m South of Bloor St to 300m north of Davenport Rd. Over the weekend, crews will tie the new west main line track into the existing main line track at the north and south limits of the project.*

## ***GO Trains will be running on the elevated guideway as of Monday, March 27, 2023***

### WHAT TO EXPECT

•Local residents can expect construction activity, excavation, noise, and lights. The work being performed will require heavy rail equipment and operating machinery (cranes, dozers, welders and grinders), and vibration. These disturbances can be expected at any time during the weekend including during the night. Starting Monday, March 27, GO Trains will run on the elevated guideway
