

# Network Update: Rosedale Siding

April 10<sup>th</sup> 2023

## What is happening?

- Starting Monday, April 10, 2023, the Rosedale Siding (located between Bayview Avenue and the Don Valley Parkway) will be used temporarily to stage GO trains during the day. As mentioned in our **March announcement** the Rosedale Siding will be used to enable future rail service increases as well as support operational requirements during the design and construction of the new York Mills layover
- Turning trains will use the Rosedale Siding for approximately two hours in the morning peak period and approximately two hours in the afternoon peak period

Information as of March 20<sup>th</sup>, 2023

## Impacts of Network Update

- As a result, trail users and nearby residents may notice some additional trains in the area
- Noise impacts: train operators must sound the bell when the train begins to move out of the Rosedale siding, as train bells are a federally mandated safety requirement

### Note

- No additional track or upgrades will be required to temporarily stage the trains on the Rosedale Siding
- No additional facilities or wayside power will be introduced in this area
- No trees will need to be removed for the use of the Rosedale Siding
- **Starting April 8, there will be changes to most GO Transit bus routes and train lines. Check [GOTransit.com](http://GOTransit.com) for schedules before you travel**

We apologize for any inconvenience this may cause.

## Questions

If you have any questions or concerns about this work, please contact us any time at [TorontoEast@metrolinx.com](mailto:TorontoEast@metrolinx.com).
