

Additional headwall work between Kipling Avenue and Islington Avenue

Scheduled start: Mid-July 2023

Expected completion: September 2023

Timing: 7:00 a.m. to 11:00 p.m.

Map of work area:

What is happening?

- WestEnd Connectors Construction (WECC), the contractors for this project, will continue with the construction of headwalls at the intersection of Wincott Drive and Eglinton Avenue West.
- Construction crews will be building an additional headwall for maintenance purposes.
- Headwalls are underground support structures that create the frame for future underground infrastructure. One of the two tunnel boring machines (also called Remy) will pass through this headwall once it is completed.

What to expect

- Nearby residents can expect to hear noise from equipment, such as drilling, compaction equipment, hauling trucks, excavators, dozers, and generators.
- One westbound through lane on the north side of Eglinton Avenue West, just west of Wincott Drive will be closed.
- Traffic signage will be provided during construction.
- WECC is working closely with Metrolinx and the City of Toronto to ensure minimal impact to pedestrians and cyclists during construction.
- Work may be delayed due to weather conditions or unforeseen circumstances. Weekend or overnight work may be required. Residents will be provided with updates as they are available.
- The information provided is anticipated based on the current construction schedule and is subject to change.

About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of the Eglinton Crosstown LRT will run 9.2 kilometres from the Mount Dennis station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
