

# Utility investigations in Pearen Park and on Eglinton Avenue West

**Scheduled start:** July 27 - 28, 2023

**Timing:** From 9:00 a.m. - 4:00 p.m.

**Map of work area:**

## What is happening?

- Contractors working on behalf of Metrolinx will be conducting utility investigations within Pearen Park and on Eglinton Avenue West (see the areas marked on the map).
- Data collected from the utility investigations will be used to inform design work for the Eglinton Crosstown West Extension project.

## What to expect

- Work crews will be digging test pits in the identified areas using a truck-mounted hydrovac drilling rig which uses pressurized water and an industrial-strength vacuum to excavate soil.
- Support vehicles like pick-up trucks will also be employed to complete this work, which include soil coring and filling.
- Residents and businesses near the work site can expect to hear some noise caused by trucks and the hydrovac equipment.
- During the work dates, traffic and pedestrian access will be temporarily impacted. Short-term temporary closures will be communicated through on-site signage.
- Equipment will be cleared at the end of every shift.
- The area impacted will be restored once work is complete.
- Work may be delayed or rescheduled due to weather conditions or unforeseen circumstances.

## About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of the Eglinton Crosstown LRT will run 9.2 kilometres from the future Mount Dennis LRT station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
