

Overnight and weekend work at Wincott Drive

Scheduled start: August 9, 2023

Expected completion: August 31, 2023

Timing: 24/7

Map of work area

What is happening?

- WestEnd Connectors Construction (WECC), the tunnelling contractors for the Eglinton Crosstown West Extension, will be conducting overnight and weekend work to construct a headwall in the area of Wincott Drive and Eglinton Avenue West.
- The additional headwall is being built for maintenance purposes.
- Headwalls are underground support structures that create the frame for future underground infrastructure. Remy, one of the two tunnel boring machines being used to dig the tunnels, will pass through this headwall once it is completed.

About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of the Eglinton Crosstown LRT will run 9.2 kilometres from the Mount Dennis station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.

What to expect

- Crews will be working 24 hours a day between August 9 and August 31.
- Piling installation (heavy drilling) will not occur overnight.
- Nearby residents can expect to hear noise from equipment used for this work, such as drilling, compaction equipment, hauling trucks, excavators, dozers, and generators.
- Work may be delayed due to unforeseen circumstances. Residents will be provided with updates as they are made available.
- WECC is working closely with Metrolinx and the City of Toronto to ensure the impact to traffic and residents along Eglinton Avenue West is as minimal as possible during this phase of work.
- The information provided above is anticipated based on the current construction schedule and is subject to change.
