

Zone 3 Noise Wall Installation

August 2023 - Fall 2024

Construction works occurring within the rail corridor, from St Clair Avenue West to the south and Eglinton Avenue West to the north.

Project Overview

The Barrie Double Track Enabling Works includes changes and upgrades to the existing rail corridor that will allow for the future installation of a second set of tracks to support two-way, all-day service.

The Project Area is within the City of Toronto and extends from King Street West to the south and Finch Avenue West to the north. Zone 3 extends from St Clair Avenue West to the south and Eglinton Avenue West to the north.

Information as of: 28 July 2023

What You Need to Know

Metrolinx will be completing construction works to provide for an additional set of tracks. To prepare for the main works, installation of noise barriers will occur within the rail corridor in Zone 3. Noise barrier construction will include drilling of posts and installing noise barrier panels.

WHAT TO EXPECT

- The work will be conducted as quickly and efficiently as possible to minimize disturbances.
- All work will occur within the rail corridor with designated access routes for construction staff.
- Limited nighttime works may occur which may result in a nuisance to nearby residents consistent with small scale construction. If any lights are required to complete the work safely, they will be directed away from households and windows to minimize impacts to residents.
- Some noise and vibration that is typical of construction activities. Residents and businesses near the work site can expect to hear noise caused by excavators, concrete trucks and other construction equipment related to this work. Noise levels and vibration levels will be within Project requirements.
- Efforts will be made to minimize dust and minimize idling.

HOURS OF WORK

- Works will occur Monday through Saturday, 7:00 a.m. to 7:00 p.m.
- Limited nighttime work may occur during this period.

TRAFFIC DETAILS

- The work will be conducted as quickly and efficiently as possible to minimize disturbances. There will be no traffic or pedestrian impacts.
