

# Survey Activities for Geotechnical Investigations along the Lakeshore East Corridor

October 25, 2023

## Project Overview

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

## What You Need to Know

As part of investigative work for the GO Expansion On-Corridor Works project, crews will occupy delineated sections of Galloway Rd and Poplar Rd to conduct surveys to identify borehole locations for future geotechnical investigations near the Lakeshore East rail corridor. This work will support future track and infrastructure updates.

### WHAT TO EXPECT

- A geotechnical engineer and surveyors will occupy the right lanes on Galloway Rd and Poplar Rd using a hand-held GPS and spray paint markers to best determine borehole locations.
- Work will take place outside of the rail corridor along Galloway Rd between Chantrey Ct and Dunera Ave (at Galloway Park), and along Poplar Rd between Portia St and Cultra Sq for short durations.
- We apologize for any inconvenience and ask for your patience as we complete this critical work.

### HOURS OF WORK

- Work is expected to take place on October 25, on Galloway Rd, and on October 26, on Poplar Rd during daytime hours between 9 a.m. and 4 p.m.
- Work will progress within the area highlighted on the map for several hours per day.

### TRAFFIC DETAILS

- Temporary lane adjustments or closures may be required to complete this work safely.
- Signage and delineation will be installed as required to direct motorists around the work zones.

### PEDESTRIAN DETAILS

- Pedestrians may be rerouted around work zones via designated temporary pathways.

### TRANSIT INFORMATION

- No anticipated impact to transit.

As with all construction, work may be adjusted, rescheduled or extended due to weather conditions or unforeseen circumstances.

Cet avis de travaux de construction est disponible en français sur demande.
