

# Randolph Avenue

## Watermain and Hydro Pole Relocation

Nov 2023

### Project Overview

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

Metrolinx will be building a new track on the Kitchener GO line, next to the West Toronto Railpath. Part of this work will include construction of a new entrance to Bloor GO Station, a new community park at Ernest Avenue, and a realignment of the Railpath, on behalf of the City of Toronto.

### What You Need to Know

Information as of: Nov 2023

*As part of the new Bloor GO Station pavilion construction at the west end of Randolph Avenue, utilities in the area including water and hydro will need to be relocated.*

---

#### **WHAT TO EXPECT**

- Starting as early as November 13, 2023, watermain work will begin at the west end of Randolph Ave. A trench will be excavated in the roadway to install new waterlines for Bloor GO Station and 21 Randolph Ave.
- Access to all driveways and entrances will be maintained
- This work will take approximately three weeks to complete and will be followed by the relocation of the hydro pole and high-voltage cables at the end of the street.
- Two temporary water shutdowns will be required around the end of November to connect the new waterlines. There will be no water service between 7:00 am and 7:00 pm. Residents and businesses will be notified at least 48 hours in advance of the shutdowns.
- Please respect all safety and exclusion measures installed to protect you. Thank you for your patience as we work to transform the rail corridor in your area.

#### **HOURS OF WORK**

- The majority of work will take place between 7:00 a.m. and 5:00 p.m. on weekdays.
- These dates are tentative and may be subject to change due to weather or unforeseen circumstances
- Work will be conducted as quickly and efficiently as possible to minimize disturbances, but residents and businesses on Randolph Ave can expect to hear noise caused by trucks, equipment, and machinery.
