

Utility investigation work in Pearen Park, area of Eglinton Avenue West and Weston Road

Schedule: November 22, 2023 to November 24, 2023

Timing: 7:00 a.m. to 5:00 p.m.

Map of work area:

What is happening?

- Crews working on behalf of Metrolinx will be conducting utility investigations in areas along Eglinton Avenue West including Pearen Park and the future Mount Dennis Station.
- Data collected from the site investigations will be used to inform design work for the Eglinton Crosstown West Extension.

What to expect

- Work crews will be digging test pits in the identified areas using a truck-mounted hydrovac drilling rig, which uses pressurized water and an industrial-strength vacuum to excavate soil.
- Support vehicles, including pick-up trucks, will also be employed to support the collection of soil samples and filling excavations.
- Residents and businesses near the work site can expect to hear some noise caused by trucks and the hydro vac equipment.
- During the work dates, traffic and pedestrian access will be temporarily impacted.
- Short-term temporary lane and sidewalk closures will be communicated through on-site signage.
- Equipment will be removed from work areas at the end of every shift.
- The area impacted will be restored once work is complete.
- Work may be delayed due to weather or unforeseen circumstances.

About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of the Eglinton Crosstown LRT will run 9.2 kilometres from the future Mount Dennis LRT station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
