

West Toronto Railpath Tunnel Shoring and Excavation

Dec 2023

Project Overview

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

Metrolinx will be building a new track on the Kitchener GO line, next to the West Toronto Railpath. Part of this work will include construction of a new entrance to Bloor GO Station, a new community park at Ernest Avenue, and a realignment of the Railpath, on behalf of the City of Toronto.

What You Need to Know

Starting January 8, 2024, work will resume on the shoring and excavation work for the new Bloor GO Station tunnel connection from Randolph Avenue.

WHAT TO EXPECT

- Starting as early as January 8, 2024, work will resume on the tunnel shoring work between Randolph Ave and the Bloor GO Station platform.
- Concrete caissons will be installed using a drill rig over a period of approximately 2 weeks. Structural steel supports will then be installed followed by excavation of the tunnel.
- Access to Bloor GO Station from the Railpath will be maintained at all times via Ernest Ave.
- Please respect all safety and exclusion measures installed to protect you. Thank you for your patience as we work to transform the rail corridor in your area.

HOURS OF WORK

- The majority of work will take place between 7:30 a.m. and 5:00 p.m. on weekdays.
- These dates are tentative and may be subject to change due to weather or unforeseen circumstances
- Work will be conducted as quickly and efficiently as possible to minimize disturbances, but residents and businesses near the rail corridor can expect to hear noise caused by trucks, equipment, and machinery.
