

Relocation of Toronto Hydro underground electrical utilities south of Pape Ave. and Langley Ave.

Scheduled start date: As early as January 15, 2024

Duration: Approximately two (2) months

Days: Monday - Sunday

Timing: Weekdays 7:00 a.m. - 7:00 p.m. and Weekends 9:00 a.m. - 7:00 p.m.

What is Happening?

- Toronto Hydro will be relocating its utilities along Pape Avenue from Riverdale Ave, to south of Langley Avenue to make room for the future Ontario Line construction. The first phase of

work will include the excavation and building of a new chamber (maintenance hole) south of Pape and Langley Ave. near the Riverdale Shopping Centre entrance.

- Work will begin as early as Monday, January 15, 2024.
- This work will take approximately two (2) months to complete.

What to Expect:

Construction:

- Work will be done using excavators and a hydrovac vehicle. This is required to safely protect the existing utility infrastructure.
- Residents and businesses near the sites will hear noise caused by work equipment, specifically trucks and excavators. Crews will take measures to minimize noise impacts wherever possible.
- Vehicle access to the Riverdale Shopping Centre turning right from Pape and Langley Ave. will be closed for the duration of this work.
- Advance signage will be in place to advise of the closure. Traffic will be redirected to Riverdale Avenue.
- Access from Pape Ave to Langley Ave will be controlled by a traffic control person.
- Dust will be mitigated by misting, sweeping and /or the use of a hydrovac vehicle.
- Equipment may be left on site but will be properly secured and stored to ensure safety.
- All the necessary permits have been obtained for this work.
- Work may be delayed due to weather conditions or unforeseen circumstances.

Safety:

- Access to residences will always be maintained.
- There will be temporary pedestrian diversions around the location where immediate work is taking place. Traffic control personnel will be on-site to ensure pedestrian safety.
- A paid duty officer and/or traffic control personnel will be on-site managing traffic and pedestrian flow.
- Signage will be posted around the site to direct pedestrians.
- After-hours security will be onsite between 7 p.m. and 7 a.m. to ensure equipment and materials are not tampered with.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer car trips each day.
