

King City GO: Watermain Installation Between King Rd & Keele St

Early August to Late December 2023

With GO service expanding to serve you better, Metrolinx is getting ready for double tracks along the Barrie Line.

Across the entire network, our goal is to deliver 6,000 train trips a week - with more frequent service, more stations, cleaner technology, and more connections. You won't need a schedule because you'll know that the next train will be coming soon. We're transforming GO Transit to bring you more frequent two-way, all-day service on the Barrie Line, up to every 15 minutes, seven days a week.

In preparation for this service expansion, we will be installing a watermain underneath the tracks between King Road and Keele Street in King Township, north of King City GO.

What is happening?

Metrolinx contractors will be installing a microtunnelled watermain underneath the tracks between King Road and Keele Street. This tunneling process involves the use of a micro-tunnel boring machine and is used to install utility pipes that are buried deep to avoid lengthy and messy open excavations.

What is the timing of this work?

This work will take place on weekdays from 6:00 AM to 7:00 PM.

What does this mean for you?

Residents located near this intersection may experience some noise and vibration due to construction. However, to minimize disruption, our contractor will be using smaller equipment and will not be working past 7:00 PM.

We apologize for the inconvenience and will continue to make every effort to minimize disruption.

Questions

If you have any questions or concerns about this work, please contact us any time at YorkRegion@metrolinx.com.

For more information on GO Expansion in your community, visit our website at www.metrolinx.com.

As with all construction, work may be adjusted, rescheduled or extended due to weather conditions or unforeseen circumstances.
