

Nighttime Works

Zone 3

Commencing: February 19, 2024

Expected Completion: Fall 2024

Construction works occurring within the rail corridor, from St Clair Avenue West to the south and Eglinton Avenue West to the north.

Project Overview

The Barrie Double Track Enabling Works includes changes and upgrades to the existing rail corridor that will allow for the future installation of a second set of tracks to support two-way, all-day service.

The Project Area is within the City of Toronto and extends from King Street West to the south and Finch Avenue West to the north. Zone 3 extends from St Clair Avenue West to the south and Eglinton Avenue West to the north.

What You Need to Know

Metrolinx will be completing construction works to provide for an additional set of tracks. To prepare for the main works, noise walls and sewers are being installed in the rail corridor. Noise barrier construction will include drilling of posts and installing noise barrier panels. Due to the proximity to tracks, some of the works must occur at night when there are no trains running.

WHAT TO EXPECT

- All work will occur within the rail corridor with designated access routes for construction staff.
- Some noise and vibration that is typical of construction activities. Residents and businesses near the work site can expect to hear noise caused by trucks, backhoes and other construction equipment related to this work.
- All work will occur when there is no train service. Nighttime works may result in a nuisance to nearby residents consistent with small scale construction.
- Equipment lights and bright flood lights will be used during nighttime works. Flood lights will be pointed downwards to minimize impacts to residents.
- Noise levels and vibration levels will be within Project requirements.
- Efforts will be made to minimize dust.

HOURS OF WORK

- Works will occur Monday through Saturday, 10:00 p.m. to 7:00 a.m. These works will occur full time until Summer 2024 followed by intermittent works until Fall 2024
- Daytime work activities will continue to occur during this period.

TRAFFIC DETAILS

- The work will be conducted as quickly and efficiently as possible to minimize disturbances. There will be no traffic or pedestrian impacts.
