

# Barrie Corridor Utility Work Near Kirby Rd

February 19 to April 7, 2024

## What is happening?

Work is underway to deliver the GO Expansion Program and prepare for the future electrification of GO service. To support this work, Alectra Utilities will be relocating overhead utilities along the Barrie rail corridor just south of the farm crossing near Kirby Rd.

## What does this mean for you?

Residents and businesses located near the rail corridor may experience some noise and vibration caused by work trucks and excavation machinery. Crews will do all that they can to minimize disruption. We thank you for your patience as we complete this important work.

## Will there be any impacts to power?

There will be impacts to power on the cutover date, which is tentatively scheduled for March 22, 2024. Alectra Utilities will be reaching out to those who will be impacted closer to the cutover date. The cutover will likely take place overnight in order to minimize impacts.

## Work hours

This work will take place from 7:00 AM to 5:00 PM, Monday to Thursday.

## Questions

We have a dedicated community relations team in place to work with residents and businesses in York Region. If you have any questions or concerns about this work, please contact us at [YorkRegion@metrolinx.com](mailto:YorkRegion@metrolinx.com).
