

Ongoing cable chamber inspections in Liberty Village

Expected start date: As early as February 26, 2024

Expected duration: Through June 30, 2024

Hours of work: Daily from 7 a.m. to 5 p.m., with some weekend work as required

Map of work area:

What is happening?

To assist in construction of the Ontario Line connecting to Exhibition Station, crews will be undertaking several Toronto Hydro related cable utilities inspections in and around East Liberty Street and Pirandello Street, in Liberty Village.

- The work is done by accessing underground cable chambers to assess internal conditions, as ongoing construction of the Ontario Line and Exhibition Station takes place. Chamber inspections may take up to 5 days per location.
- Crews will restore roadway access once inspections are complete; the chamber lids (covers) will be put back into place.

What to expect

- There will be crew pick-up trucks parked at various cable chamber locations around Liberty Village, which will be protected and barriered by pylons, as work occurs.
- Large cable reels will be on-site through March 1st.
- Temporary lane closures will be needed as work progresses; work areas will only be temporarily fenced off.
- Work zone barriers (pylons/signs) will be present to clearly mark temporary work areas.
- Some weekend work may be required, depending on Toronto Hydro requests.
- Work may be postponed or rescheduled due to unforeseen circumstances.
- All necessary construction permits have been obtained.
- For more information about upcoming station work please see [metrolinx.com/Ontarioline](https://www.metrolinx.com/Ontarioline) or sign up for the e-newsletter

About the Ontario Line

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
