Exhibition

What is happening?

- Works within the rail corridor at the current Exhibition GO Station are being undertaken to shift the existing track #2 further north. This work prepares the way for the future Exhibition Station that will serve both the Ontario Line subway as well as current and future GO Rail operations.
- Within the Metrolinx corridor between mile 1.8 and 2.3 track work will take place during a planned weekend track closure.
- Trains on the Lakeshore West line will be replaced by GO buses throughout the March 23-24 weekend.
- TTC Route 509 streetcars will provide service to and from Union Station.

What to expect

- Local residents can expect construction activity including noise at the tracks and lights to ensure safety for workers on site as tracks are realigned.
- The work being performed will require heavy rail equipment and operating machinery (dozers, welders and grinders.)
- Existing tracks will be lifted out of place and shifted to their realigned location. This rail track relocation is part of work to prepare for future island platform.

About the Ontario Line

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer car trips each day.
