

Vegetation Removal and Grading in Rail Corridor

February 19, 2024 – March 31, 2024

The Local Project

As part of the GO Expansion project, improvements are coming to Aurora GO Station. Improvements include constructing a second platform, installing a second track, upgrading rail signals, building a new pedestrian tunnel with elevators, and installing tactile tiles on the existing east platform for improved accessibility.

To support these improvements, Metrolinx contractor **Grascan Construction Ltd** will begin preparatory work within the corridor starting from 128 Centre Street and proceeding approximately 550 metres north.

What is happening?

Contractors will be working in the corridor to clear vegetation at 128 Centre St. and 19 Birch Court. They will also be grading the corridor to prepare for the future installation of a retaining wall and second track.

What does this mean for you?

Work will occur Monday-Friday between the hours of 7:00am – 5:00pm. Weekend and overnight work may be required on occasion, but advanced notice will be given when this is necessary. Work is scheduled to start the week of February 19th and should be completed by the end of March.

As with any construction, the start of this work may be adjusted due to weather conditions or unforeseen circumstances. Residents will be given notice if there's any adjustment to the timelines.

Nearby residents may experience increased noise levels and vibrations from heavy construction equipment such as loaders, excavators, and dozers within the corridor. Every effort will be made to minimize disruption.

Contractors will use noise and vibration technology to monitor levels and ensure they do not exceed municipal limits.

We apologize for the inconvenience, and we ask for your patience as we complete this necessary work.

Questions

If you have any questions or concerns about this work, please contact us any time at YorkRegion@metrolinx.com.
