Reference – OL – Temp Power Bathurst-King Station

Dear Sir/Madam,

Entera Utility Contractors Co. Ltd. has been contracted to upgrade the current electrical distribution system. Underground work will be carried out near your property, where access to and from your property will be maintained in a safe manner.

As part of our Quality Assurance program our QA/QC Representatives will be on site to video tape the entire construction area. We will be videotaping prior to as well as after the completion of all construction.

We kindly ask you, to please notify us of any buried private service lines that may have been placed/buried on your/public property. Please email any information to gconforti@entera.ca.

Entera personnel will be easily identified as they will be wearing Entera hard hats containing the logo in the top left corner of this letter. The Supervisors on site will be wearing white Entera hard hats. Should you have any immediate questions or concerns, please approach the Supervisors and they will do their best to accommodate you.

This project is expected to start early April 2024 and Civil to be completed by June 2024. Entera will place temporary repairs to the public property. We ask for your patience, understanding and cooperation in completing this necessary work to improve the infrastructure in your neighborhood. Please contact Entera if you have any questions or concerns regarding our work at 416-746-9914.

Sincerely,
Gino Conforti
Project Superintendent,
Entera Utility Contractors

Construction Notice

March 5, 2024

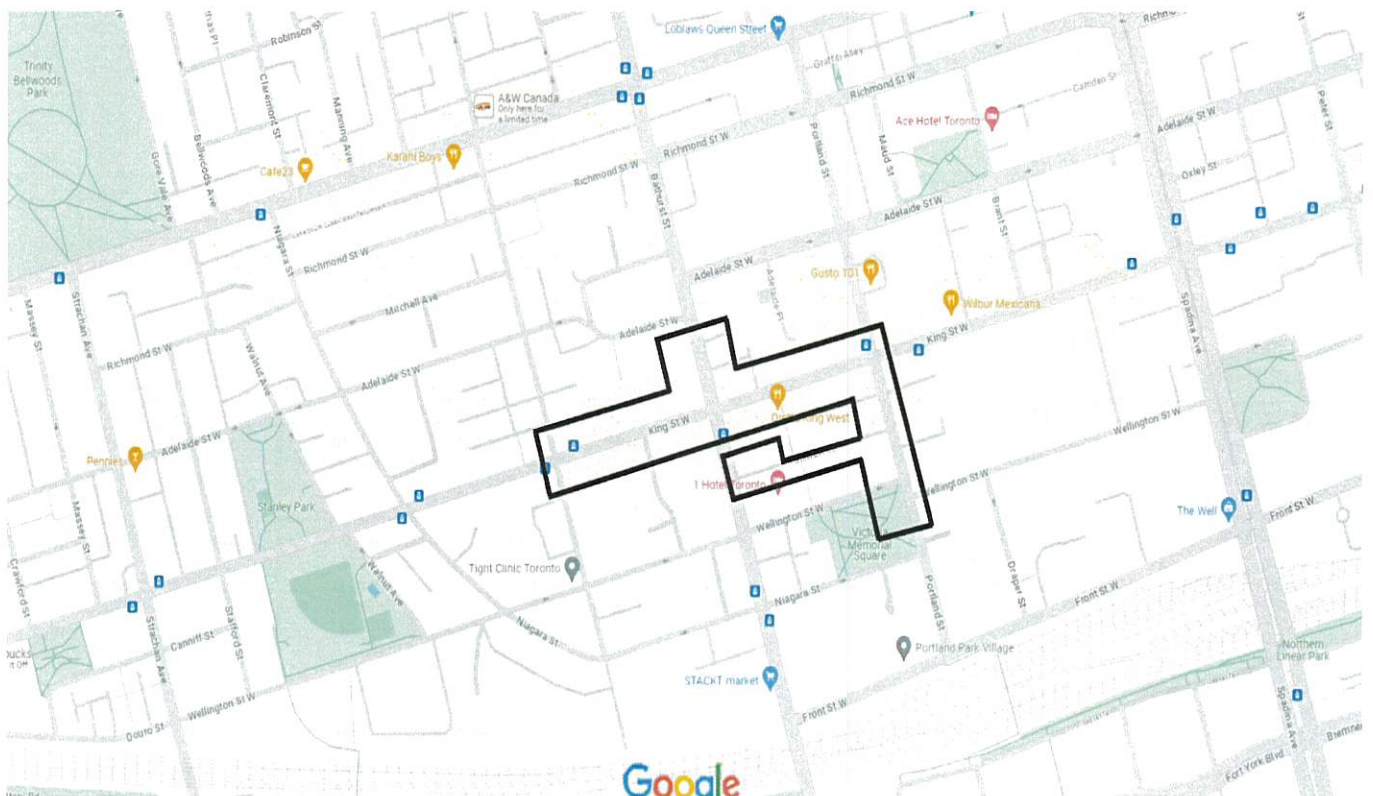

Dear Resident,

As a result of construction to your neighbour's property, Toronto Hydro will be upgrading underground electrical cables and installing cable chambers to provide temporary power for the Ontario Line stations.

We want to hear from you!

When our construction work is finished, we'll send you a brief survey in the mail to collect feedback on your experience. Toronto Hydro values your feedback and we're committed to providing you with the highest quality of service possible.

Important information and safety tips on the reverse side.

PROJECT STAGES

1

Design

The *design* stage is when technical staff plan on how to get the new power supply to your home or business.

2

Civil

The *civil* stage is when crews dig into the ground and place new poles and underground conduits.

3

Electrical

The *electrical* stage is when crews switch over the supply from the old to the new system.

Planned Power Interruptions

- Throughout this project, planned power outages may be necessary when switching from the old to the new electrical system. We will always provide you with advance notice of these outages.

WORK DETAILS

What to expect

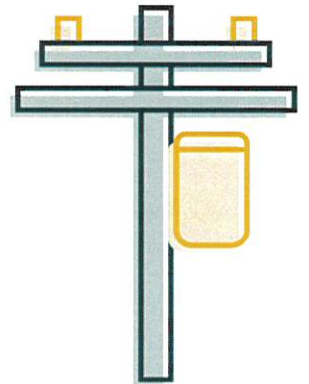

- While Toronto Hydro will make every effort to reduce the impact of construction on your community, you may experience dust, noise and other inconveniences as a result of the work on this project. We appreciate your patience as we work to improve the reliability of service in your neighbourhood.

Work hours

- The work on this project will generally take place Monday to Friday, between 7 a.m. and 7 p.m. However, some weekend work may occur.

Road and sidewalk access

- In order to complete work in a safe manner, there may be road and sidewalk restrictions within the construction work area. In the event of any parking restrictions in your community, advance notice will be provided.

SAFETY TIPS

Public safety is our top priority and everyone plays an important role:

- Never enter a construction area marked by fences or safety cones
- Be visible at all times and make eye contact with people operating equipment
- Be aware of your surroundings and avoid distractions
- Follow all safety signage, even if there are no construction workers around
- Walk on the sidewalk or designated walkway
- Ask for assistance to walk around the construction area if preferred
- Watch your step! Always be prepared for unexpected hazards
- Report anything that looks dangerous to a construction site worker, or call 416-542-8000
