

Major Track Closure

St Clair Ave W to Finch Ave W

Friday April 12 - Monday April 15, 2024

Major Track Closure occurring within the rail corridor, from St Clair Avenue West to the south and Finch Avenue West to the north.

Project Overview

The Barrie Double Track Enabling Works includes changes and upgrades to the existing rail corridor that will allow for the future installation of a second set of tracks to support two-way, all-day service on the Barrie line.

The project area is within the City of Toronto and extends from King Street West to the south and Finch Avenue West to the north. The major track closure extends from Zone 3 to Zone 7, as shown in the map above. Works will be occurring in between St Clair Avenue West and Finch Avenue West.

What You Need to Know

Metrolinx will be completing construction of enabling works to provide for an additional set of tracks. This includes installing a casing pipe to protect an existing watermain from train loading, installing noise wall panels, performing grading works, installing infiltration trenches for improved drainage, and daylighting of buried utilities to confirm their location in relation to the future set of tracks.

WHAT TO EXPECT

- All work will occur within the rail corridor with designated access routes for construction staff.
- Some noise and vibration that is typical of construction activities. Residents and businesses near the work site can expect to hear noise caused by excavators, concrete trucks, pickup trucks, and other construction equipment related to this work.
- Noise levels and vibration levels will be within Project requirements.
- All work will occur when there is no train service. Nighttime works may result in a small disturbance to nearby residents consistent with small scale construction.
- Equipment lights and bright flood lights will be used during nighttime works. Flood lights will be pointed downwards to minimize impacts to residents.
- Efforts will be made to minimize dust.

HOURS OF WORK

- Works between Sheppard Avenue West and Finch Avenue West will occur 24 hours a day, 12:00 AM April 13 (i.e. midnight Friday on Saturday) to 04:00 AM Monday April 15, 2024.
- Works between St Clair Avenue West and Bridgeland Avenue West will occur during the day, from 07:00 AM to 5:00 PM on April 13 and April 14, 2024.

TRAFFIC DETAILS

- The work will be conducted as quickly and efficiently as possible to minimize disturbances. There will be no traffic or pedestrian impacts.
