

Utility relocations at the intersection of Grandview Ave. & Dudley Ave., and on Crestwood Rd.

Schedule: April 15th - May 31, 2024

Timing: 7:00AM to 5:00PM

What is happening?

To support the Yonge North Subway Extension Project, Rogers will be conducting utility work at the intersection of Grandview Ave. and Dudley Ave., as well as on Crestwood Rd, west of Yonge St. This work will support the construction of the future Clark Station and will be conducted by Black and MacDonald on behalf of Rogers.

About the Yonge North Subway Extension

The Yonge North Subway Extension will transform the commute in York Region, Toronto and beyond by extending the TTC's Line 1 subway service north from Finch Station to Vaughan, Markham and Richmond Hill. This extension includes five confirmed subway stations along an extension of roughly eight kilometres.

WHAT TO EXPECT- April 15th - May 31, 2024 (Phase 5)

- There will be no disruptions to your Rogers services.
- Residents near the work sites can expect noise and vibrations associated with general construction activities and during use of hydro-vac trucks which will be required for one day at each location.
- There will be temporary curb lane closures for open-cut trenching at the intersection of Grandview Ave. and Dudley Ave, as well as on Crestwood Road. Lane closures will be removed outside of work hours.
- Wayfinding signage will be posted to direct vehicular traffic. There will be no impact to pedestrian traffic. Dates are subject to change. In the case of a notable delay, residents will be provided with updates once available.

METHODOLOGY

Rogers will drill within the road's municipal right of way. Thereafter, crews will excavate an open-cut trench to support utility works. The open-cut excavation work will allow integrating Rogers conduit necessary for the future planned expansion.
