

# UPDATE: Overnight Geotechnical Monitoring Point Installations at Pape and Danforth

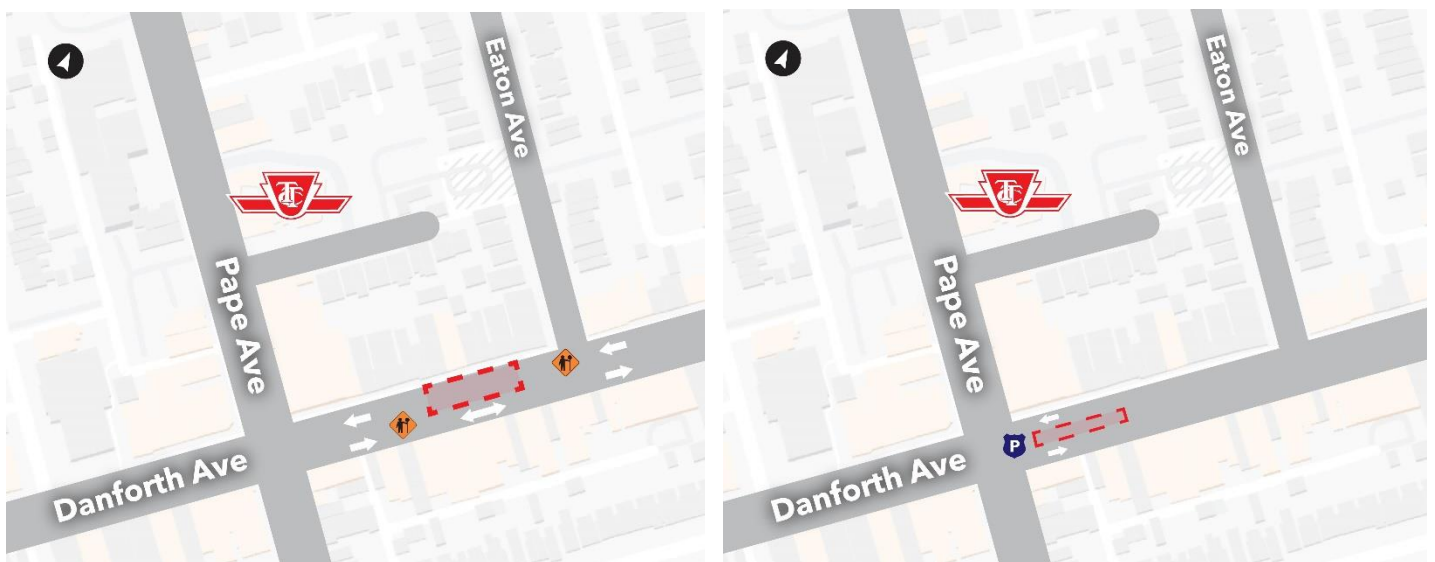

**Expected start date:** As early as April 16, 2024

**Expected duration:** Five (5) days

**Timing:** April 16-18: Overnights, 9 p.m. to 6 a.m.

April 20: 8 a.m. to 6 p.m.

April 21: 9 a.m. to 4 p.m.

Left: Overnight staging April 16-18, single lane of traffic alternating with traffic control personnel  
Right: April 20/21 weekend staging, bi-directional traffic maintained with paid-duty officer

## What is happening?

- On April 16, crews will return to Danforth Avenue to complete geotechnical monitoring point installations.
- From April 16-18, crews will work overnight on the north side of Danforth Avenue between Pape Avenue and Eaton Avenue.
- On April 20 and 21, crews will occupy the centre of Danforth Avenue east of the Pape and Danforth intersection. Bi-directional traffic will be maintained around the work zone.
- These points will be used to monitor underground utilities and groundwater pressure and levels during Ontario Line construction.
- Monitoring points will be installed in-ground within the roadway the areas shown above in red.
- All necessary permits have been obtained and works will be monitored by Metrolinx representatives to ensure compliance.

## What to expect

- Monitoring point installation will involve the use of hand tools, a mobile drill, a coring truck, and a hydro-vac excavator.

- Work from April 16-18 will take place overnight to reduce traffic impacts. Traffic will alternate in a single lane south of the work zone, controlled by a flag person on either side.
- Work on April 20 and 21 will take place during the day. Bi-directional traffic will flow around the work zone in the centre of Danforth Avenue, with a paid-duty officer ensuring safe flow at the Pape and Danforth intersection.
- Following installation, crews will be visiting each monitoring point on a bi-weekly basis to gather data until summer 2024.
- Work will require crews to occupy street parking spots. “No Parking” signs will be posted in advance.
- Residents may experience noise from work equipment.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances.
- For more information about upcoming works, please see [metrolinx.com/ontarioline](https://metrolinx.com/ontarioline) or sign up for the e-newsletter.

---

## About the Ontario Line

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
