

# West Toronto Railpath

## Landscaping - Dupont St to Ruskin Ave

April 2024

### Project Overview

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. Across the entire network, our goal is to deliver over 10,000 train trips a week - so you won't need a schedule because you know the next train will be coming soon. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

Metrolinx will be building a new track on the Kitchener GO line, next to the West Toronto Railpath. Part of this work will include construction of a new entrance to Bloor GO Station, a new community park at Ernest Avenue, and a realignment of the Railpath, on behalf of the City of Toronto.
