Demolition and reconstruction work at the Queen Street East bridge

Expected start date: Monday, April 29, 2024

Expected duration: Six (6) months

Hours of work: Monday - Saturday, from 5 a.m. - 7 p.m.

What is happening?

- Starting Monday, April 29, 2024, the piers and abutments at the Queen St. E. bridge will be demolished. Once the demolition work is completed, new bridge abutments will be built.
- Construction will take place in two stages; work will start on the north side of Queen St. E. and then shift onto the south side of the road.
- This work will take place Monday Saturday, between 5 a.m. 7 p.m. for approximately six months. Periodically, work may be required to continue until 10 p.m. to complete critical activities.
- Traffic lane and pedestrian closures will be required to complete this work safely. Please review the complete notice below for specific details.

Traffic and pedestrian details

- Traffic may be stopped for short durations during lifting operations or to facilitate the safe entry/egress of construction equipment.
- Crews may alternate between the two stages as required to allow for the safe continuation of the work.

Stage one

- Westbound traffic on Queen St. E. will be reduced to one lane.
- For safety, the sidewalk on the north side of Queen St. E. will be closed periodically while demolition activities are taking place.
- When possible, temporary walkways will be established to provide pedestrian access around the work zone. **One sidewalk will remain open at all times.**

Stage two

- Both eastbound and westbound traffic on Queen St. E. will be reduced to one lane.
- For safety, the sidewalk on the south side of Queen St. E. will be closed periodically while demolition activities are taking place.
- When possible, temporary walkways will be established to provide pedestrian access around the work zone. **One sidewalk will remain open at all times.**

What to expect

- The piers and abutments on the east side of the Queen St. E. bridge will be removed and new abutments will be built.
- To complete this work safely, work zones will be set up beneath the Queen St. E. bridge.
- Drill rigs will be used to dig holes into the ground which will then be filled with steel and concrete to form the foundation for the new abutment. A crane will be used to set up the drill rig.
- Construction activities will include saw cutting, concrete breaking, piling, drilling, rebar installation, formwork installations, and concrete pours.
- Noise from construction equipment including concrete pumps, excavators, cranes, and delivery trucks, can be expected
- Noise mitigation measures, including temporary noise barriers and noise reducing equipment, will be implemented as required.
- Clear signage will be in place to direct vehicles and pedestrians.
- Traffic barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Traffic markings will be removed and painted on the roadway as required to guide motorists and cyclists.
- Work may be delayed due to weather conditions or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
