

Lakeshore West Rail Corridor Maintenance - Bridge Rehab

Parkside Drive, Colborne Lodge Drive, Ellis Avenue, Windermere Avenue
and South Kingsway Drive - May 13, 2024 - July 19, 2024

What You Need to Know

Starting May 13, 2024, Metrolinx will be continuing bridge maintenance along the Lakeshore West (LSW) rail corridor. We will be continuing to rehabilitate the Parkside Drive Bridge, Colborne Lodge Dr Bridge, Ellis Ave Bridge, Windermere Ave Bridge and the South Kingsway Bridge between the Queensway & Lakeshore Blvd W. **This construction notice is for the remaining work at all five (5) bridge locations.**

Due to the start of construction work on the Gardiner Expressway, the City of Toronto has requested that all remaining work that requires lane closures be carried out at night. Remaining work includes sandblasting and painting at Windermere Ave and other works at all five (5) bridges during the nighttime between 8:00pm and 6:00am starting **May 13 until July 19, 2024**. During this same period, daytime work may occur for other maintenance and rehabilitation activities such as steel repairs and electrical works.

We understand that we are conducting bridge maintenance in some residential areas along the rail corridor, and that overnight work is not ideal. We appreciate your patience, and we will complete this work as efficiently as possible to get things back to normal for you. The timeframe of work is subject to change based on work progress.

WHAT TO EXPECT

- Anticipated overnight work for bridge rehab and maintenance.
- Overnight work is necessary so trains can run throughout the day.
- You can expect short term and long-term lane closures.
- Noise levels may be elevated in the areas surrounding the work locations.
- You may see lights so workers can operate safely at night. Our teams always work hard to minimize community impacts.

HOURS OF WORK

- Work will take place overnight on weekdays from 8:00pm to 6:00am between May 13 and July 19, 2024. Short term lane closures will be in place.
- Daytime work is also possible between May 13 and July 19, 2024, for other structural rehabilitation works including steel repairs and electrical work. Short term lane closures will be in place.
- Nighttime work at Windermere is scheduled between May 13 and July 19. Nightly lane closures will be in place.
- Maintenance work is being completed during the nighttime to avoid disruption to the Lakeshore West GO Trains.
- Productivity each night varies depending on a variety of factors such as weather.

TRAFFIC DETAILS

- There are anticipated lane closures on all five (5) roads where work is taking place.
- Traffic will be reduced to single lane traffic where work is occurring.
- Please review traffic signs and drive with care in areas of work.

PEDESTRIAN DETAILS

- Sidewalk detours will be required to complete works over the sidewalks. Watch for and follow all detour signs.

TRANSIT INFORMATION

- There are no anticipated transit impacts. Trains will operate as scheduled throughout the day. Train schedules may vary based on service changes.
- Work will be completed within the LSW Rail Corridor.

OTHER INFORMATION

- We have a dedicated Community Engagement team in place to work with residents and the communities where we operate.
- If you have any questions or concerns, please review the contact information on the notice at the bottom of this page.
- Please do not hesitate to reach out to the Toronto West Community Engagement Team if you have any questions, comments, or concerns.
