

# Dewatering Pipe Installation at 2 Paisley Avenue

**Expected start date:** As early as Friday, May 17, 2024

**Expected duration:** Approximately one (1) day

**Hours of work:** Monday - Friday, between 7:00 a.m. - 5:00 p.m.

## What is happening?

- As early as Friday, May 17, 2024, work to connect a dewatering pipe to an existing manhole at 2 Paisley Ave will begin. This work will take approximately one day to complete.

- Dewatering is required to remove groundwater from the construction site and ensure the soil is safe and stable to work on.
- Temporary traffic lane and sidewalk closures will be required to safely perform these activities; please refer to the **traffic and pedestrian details** section below for specific information.

## Traffic and pedestrian details

- A portion of the traffic lane and sidewalk at the corner of Paisley Ave. and Booth Ave. will be closed during the installation of the dewatering pipe. The sidewalk will be open at the end of each day.

## What to expect

- Noise from construction equipment including a hydro-vacuum truck, excavators, trucks, compressor, and other equipment.
- Advance signage will be in place to direct vehicles, pedestrians, and cyclists.
- Traffic barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Traffic control personnel will be present while this work takes place.
- Work may be delayed due to weather conditions or unforeseen circumstances.

## About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
