LAND ACKNOWLEDGEMENT

Let us take a moment to acknowledge we are on lands that have been, and continue to be, home to many Indigenous Peoples including the Anishnabeg, the Haudenosaunee and the Huron-Wendat peoples.

We are all Treaty people. Many of us have come here as settlers, as immigrants or involuntarily as part of the trans-Atlantic slave trade, in this generation, or generations past.

We acknowledge the historic and continued impacts of colonization and the need to work towards meaningful reconciliation with the original caretakers of this land.

We acknowledge that Metrolinx operates on territories and lands covered by many treaties that affirm and value the rights of Indigenous communities, Nations and Peoples.

We understand the importance of working towards reconciliation with the original caretakers of this land. At Metrolinx, we will conduct business in a manner that is built on a foundation of trust, respect and collaboration.

SAFETY MOMENT

Greenway Design Overview

Greenway Detail Design

Over the last couple of months, Metrolinx has been working with its partners at the City of Toronto and with utilities operators (Hydro One and Toronto Hydro) to review in technical detail the design package to identify and mitigate any potential issues and impacts on utilities and drainage. The technical review process is ongoing, and upon completion, we will proceed to the issuing of the tenders followed by the start of construction.

When this technical review process is complete, we will also provide an update to the community through both virtual and in-person engagement sessions.
