

Update: Sewer Installation on De Grassi Street

Expected start date: starting as early as Thursday, June 13, 2024

Expected duration: approximately three weeks

Hours of work: Monday - Friday, between 7 a.m. - 7 p.m.

What is happening?

- As early as Thursday, June 13, 2024, sewer installation work will begin on De Grassi Street north of Queen Street East. This work will take approximately three weeks to finish.

- This new sewer line is required to make space for the future Riverside-Leslieville subway station.
- Temporary parking and sidewalk closures will be required to safely perform these activities; please refer to the **Parking and pedestrian details** section below for specific information.

Parking and pedestrian details

- A portion of the sidewalk on the east side of De Grassi Street north of Queen Street East will be closed during the sewer installation.
- The south entrance to Bruce Mackey Park will be closed. The park will remain accessible through the north entrance, as indicated on the map.
- Street parking on Degrassi Street will be restricted in some areas to safely separate the work zone and allow space for construction.
- Street parking restrictions may start earlier to give enough time for residents to find alternate arrangements.

What to expect

- Noise from construction equipment including a hydro-vacuum truck, excavators, trucks, compressor, and other equipment.
- Crews will install two new manholes and a sanitary sewer line.
- Advance signage will be in place to direct vehicles, pedestrians, and cyclists.
- Traffic barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Traffic control personnel will be present while this work takes place.
- Work may be delayed due to weather conditions or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
