

Overnight Work: Retaining wall work for the Pedestrian Box Structure, starting as Early as Mid-June

Project Overview

As part of GO Expansion, Metrolinx is building a 270-metre underground pedestrian tunnel extension connecting Bloor GO/UP Station to Dundas West TTC Station. When finished, customers will have an accessible and safe pedestrian connection between GO Transit, UP Express and TTC services, to better support customers travelling throughout Toronto. This project supports the development of a regional rapid transit network that offers seamless connections to more stations and faster trains.

What You Need to Know

The contractor engaged for the Bloor GO (TTC connection) project will be proceeding with the drilling work as early as mid-June. This work is part of the Pedestrian Box structure and will impact the area highlighted in red above. The work will not impact the commuters accessing the Bloor GO station or railway operations of the Bloor GO station. Most of the work is planned to take place at night from the hours of 8.30pm to 5am (Sunday night to Friday morning). There may be noise and light impact to the surrounding area.

WHAT TO EXPECT

- Heavy machinery including drill rigs and lighting towers.
- An elevated presence of construction workers in the drilling area.
- Elevated noise level and light levels to the residences surrounding the project area.
- Elevated vibration levels to the residences surrounding the project area.
- All efforts will be made to minimize community impacts.
