

Manse Road Level Crossing: Whistle Blowing Commencement

June 11, 2024

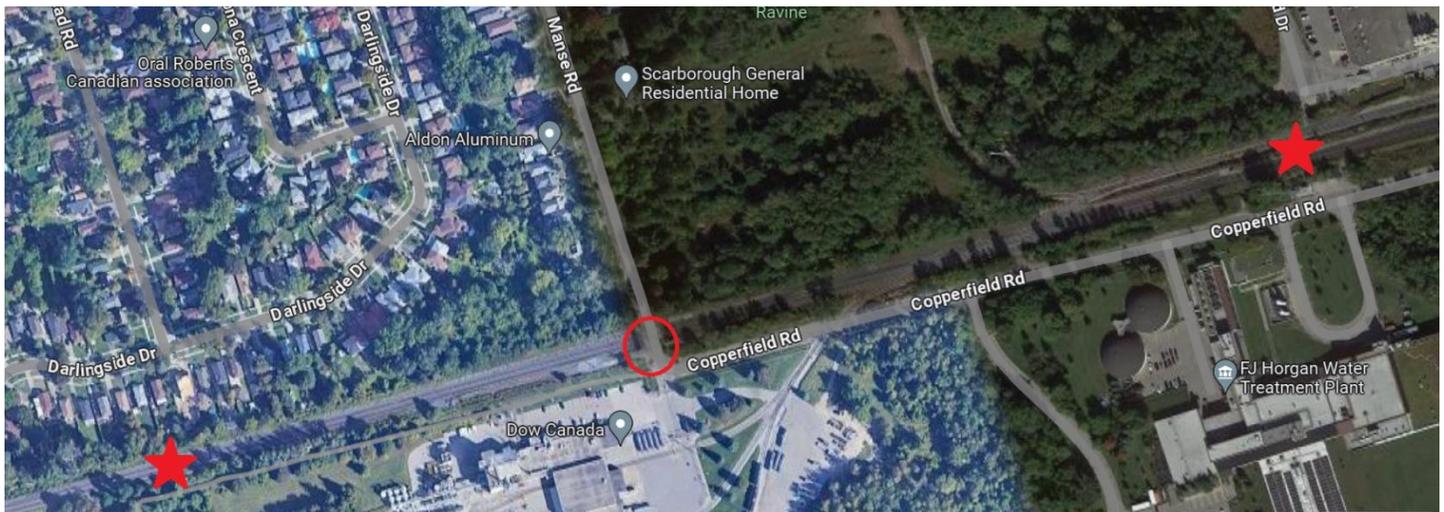

Safety is our Number One Priority

Last week, after a near miss incident involving a truck transporting chemicals to DOW and a GO Train at the Manse Road Rail Crossing, Metrolinx is undertaking a full-scale safety assessment.

As a result of this extremely concerning incident, **we will be implementing the following measures in this area effective immediately while this assessment is underway:**

- Reinstating the requirement for train whistles at the crossing; and
- Limiting train speeds to no more than 50 miles per hour when entering the crossing in both directions.

Transport Canada requires the implementation of whistles in any situation where unsafe conditions affect the rail corridor. We will continue to work collaboratively with DOW chemical to ensure the safety of passengers, train crews and the public.

Questions

If you have any questions or concerns about this whistle blowing installation, please contact us at torontoeast@metrolinx.com. For more information on Rail Safety and GO Expansion in your community, visit our website at www.metrolinx.com.
