

Don Yard Community Open House
MEETING MINUTES
June 5, 2024
6:00 PM - 8:00 PM
Young Centre for the Performing Arts

OVERVIEW:

On June 5, 2024, Metrolinx, KO Constructors, and LURA co-hosted an open house at the Young Centre for the Performing Arts to inform and speak with members of the community about construction work taking place in the area to support the new Ontario Line bridge over the Don River/Don Valley Parkway (DVP). During the event, the project team had discussions with community members and residents to understand their questions and concerns about the project.

QUESTIONS:

1. The bridge design is not the most inspiring. Have you looked at other new bridges in Portland for inspiration?
2. Where are track crossovers planned between Corktown and East Harbor stations, if there are any? Please ensure there isn't one under the 39 Parliament St. Condo.
3. Will the new bridge have pedestrian and bike paths available?
4. How will pedestrians cross the bridge to reach East Harbor Station?
5. Why is there not a subway station planned for this area? It seems like a missed opportunity.
6. Will summer construction impact the scheduled Toronto Outdoor Picture Show screenings at Corktown Common (each Thursday in July at sundown)?
7. Is there any possibility of connecting the Ontario Line to Mississauga via Metrolinx?
8. How many washrooms will be on the full Ontario Line? Please consider including accessible washrooms.
