

Ontario Line

Subsurface investigations for sewer work on Pape, Cosburn, and Gowan

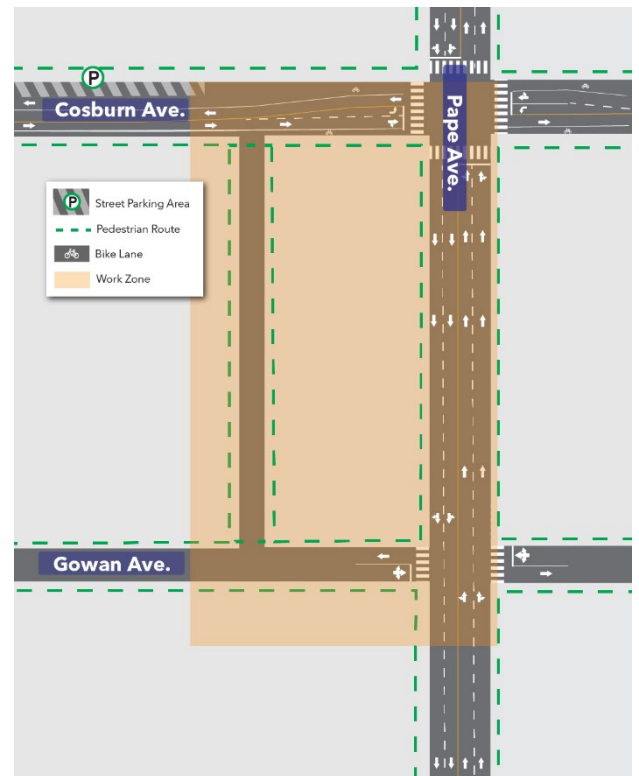

Expected start date: As early as July 2, 2024

Duration: Approximately one (1) week

Hours of work: Monday to Saturday, 7 a.m. – 7 p.m.

What is happening?

- To accommodate future construction of Cosburn Station, the existing sewer under Pape Ave will be relocated to the laneway west of Pape Ave south of Cosburn Ave.
- In preparation of the sewer relocation, investigative work will be conducted throughout the “Work Zone” [labeled in orange in the adjacent map].
- The work will involve drilling and small excavations to confirm locates and ground conditions prior to the commencement of sewer relocation work.
- The sewer relocation is expected to start on July 8, 2024, and take approximately three months to complete.
 - A separate notice outlining each phase will be distributed before July 8.
- The investigation work is unrelated to the ongoing Rogers line relocation work in the area.

What to expect?

- The investigative work will require short-term traffic detours as the work team investigates the work zone.
 - Expect minor traffic impacts.
- Nearby residents and businesses can expect noise and vibration from construction activities.
