What to Expect

- Overnight work is required to complete activities that construction crews cannot do safely while trains are active and running in the corridor.
- Excavators, trucks, compactors, loaders, skid steers, and mobile cranes will be used to complete daytime work activities.
- Residents in nearby properties may experience vibration from the work; monitoring is in place to ensure levels stay within acceptable limits.
- Various mitigation measures will be implanted to reduce disruption.
- Overnight site lighting will be positioned downward into the rail corridor and away from residential properties.
- Construction equipment and materials will be secured within the work zones.
- Individual notices will be issued when construction work impacts traffic, pedestrians or requires disruptions to TTC or GO Train services.
- Work may be rescheduled due to inclement weather and/or unforeseen circumstances.
- Work locations are subject to change and may vary based on site conditions and/or schedule requirements.

Work outside of the rail corridor:

Utility installations and reconstruction of the GO rail bridges at Queen St. E., Logan Ave., and Dundas St. E. will also continue through 2024. Some work will require road, sidewalk, TTC and GO rail closures. Additional notices will be issued for construction activities outside of the rail corridor.
