

# New date: Water Shut-Off on De Grassi Street

**Shut-off date:** Tuesday, July 16, 2024 (was previously Friday, July 12)

**Work dates:** Monday, July 15 to Friday, July 19, 2024

**Hours:** 9 a.m. to 4 p.m.

**Affected area:** De Grassi St. between Wardell St. and Queen St. E.

## What is happening?

- On **Tuesday, July 16, 2024**, the watermain on Degrassi Street will be shut down to enable sewer installation work.
- **Water service will be shut off at properties on Degrassi St. between Wardell St. and Queen St. E. on each day between 9 a.m. - 4 p.m. - affected properties are listed below.**
- Water service will be restored upon completion of the work.
- Watermain work will continue from Monday, July 15 to Friday, July 19, 2024, and will include compaction of asphalt and granular material (paving)- **vibrations can be expected at nearby properties during compaction work.**

- Monitoring is in place to ensure vibration levels remain within acceptable limits.
- Temporary parking and sidewalk closures will be required to safely perform these activities; please refer to the **Parking and pedestrian details** section below for specific information.

### Affected properties:

- The following properties will be affected by this water shut-off:
  - 2 - 48 Degrassi Street (even numbers only)

### Parking and pedestrian details

- A portion of the sidewalk on the east side of De Grassi Street north of Queen Street East will be closed during the sewer installation.
- The south entrance to Bruce Mackey Park will be closed. The park will remain accessible through the north entrance, as indicated on the map.
- Street parking on Degrassi Street will be restricted in some areas to safely separate the work zone and allow space for construction.
- Street parking restrictions may start earlier to give enough time for residents to find alternate arrangements.

### What to expect

- Water service will be periodically unavailable while this work takes place - please carefully review the details above.
- Noise and vibration from construction equipment including a hydro-vacuum truck, excavators, vibratory rollers, trucks, compressor, and other equipment.
- Crews will install two new manholes and a sanitary sewer line.
- Advance signage will be in place to direct vehicles, pedestrians, and cyclists.
- Traffic barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Traffic control personnel will be present while this work takes place.
- Work may be delayed due to weather conditions or unforeseen circumstances.

### About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
