

# Concrete Deficiency Works in Laneway at Forest Hill Station

## Project Overview

Metrolinx's Eglinton Crosstown LRT will be a new 19-kilometre light rail transit line in midtown Toronto. With 25 stations and stops along the dedicated route, getting across town will be up to 60% faster than before. The Crosstown will link to 54 bus routes, three TTC subway stations

and GO lines, providing important transit connections to get people to where they need to go faster than ever before.

## What You Need to Know

As early as, Wednesday, July 17, 2024, crews at Forest Hill Station will be performing concrete deficiency works in the Hilltop Road - Bathurst Street laneway, north of the Secondary Entrance. To facilitate this work safely, the laneway will be closed north of the Secondary Entrance, refer to map. Access to the laneway will be maintained from Hilltop Road and Bathurst Street. Through traffic in the laneway will be restricted. Pedestrian access through the laneway will be maintained at all times. This work is expected to take place between 7:00 a.m. and 7:00 p.m. for approximately two (2) weeks. Upon completion of this work short-term periodic lane reductions may be required on Eglinton Avenue to facilitate special activities.

### WHAT TO EXPECT

- Crews will be performing concrete deficiency works in the Hilltop Road - Bathurst Street laneway, north of the Secondary Entrance.
- Noise from construction activity, including concrete breaking, can be expected.

### HOURS OF WORK

- As early as Wednesday, July 17, 2024, between 7:00 a.m. and 7:00 p.m. for approximately two (2) weeks.

### TRAFFIC DETAILS

- The laneway will be closed north of the Secondary Entrance.
- Access to the laneway will be maintained from Hilltop Road and Bathurst Street.
- Through traffic in the laneway will be restricted.

### PEDESTRIAN DETAILS

- Pedestrian access through the Hilltop Road - Bathurst Street laneway will be maintained at all times.

### TRANSIT INFORMATION

- Access to TTC will be maintained at all times.
