

NEW DATE: Water Shut-Off on De Grassi Street

NEW SHUT-OFF DATE: Thursday, July 25, 2024 between 9 a.m. - 4 p.m.

Sewer work dates: Monday, July 22 to Monday, July 29, 2024

Affected area: De Grassi St. between Wardell St. and Queen St. E.

What is happening?

- On **Thursday, July 25, 2024**, the watermain on De Grassi Street will be shut down to enable sewer installation work. The additional water shut off is required due to unforeseen conditions in the watermain, which require the crews to use extra precaution while installing the new sewer. The water must be shut down while crews are working beneath the watermain, to prevent the watermain from rupturing.
- Crews will endeavor to minimize the duration of the water-shut as much as possible.
- **Water service will be shut off at properties on De Grassi St. between Wardell St. and Queen St. E. between 9 a.m. - 4 p.m. - affected properties are listed below.**
- Water service will be restored upon completion of the work.

- Sewer work will continue until Monday, July 29, 2024 and will include compaction of asphalt and granular material (paving)- **vibrations can be expected at nearby properties during compaction work.**
- Monitoring is in place to ensure vibration levels remain within acceptable limits.
- Temporary parking and sidewalk closures will be required to safely perform these activities; please refer to the **Parking and pedestrian details** section below for specific information.

Affected properties:

- The following properties will be affected by this water shut-off:
 - 2 - 48 Degrassi Street (even numbers only)

Parking and pedestrian details

- A portion of the sidewalk on the east side of De Grassi Street north of Queen Street East will be closed during the sewer installation.
- The south entrance to Bruce Mackey Park will be closed. The park will remain accessible through the north entrance, as indicated on the map.
- Street parking on Degrassi Street will be restricted in some areas to safely separate the work zone and allow space for construction.
- Street parking restrictions may start earlier to give enough time for residents to find alternate arrangements.

What to expect

- Water service will be periodically unavailable while this work takes place - please carefully review the details above.
- Noise and vibration from construction equipment including a hydro-vacuum truck, excavators, vibratory rollers, trucks, compressor, and other equipment.
- Crews will install two new manholes and a sanitary sewer line.
- Advance signage will be in place to direct vehicles, pedestrians, and cyclists.
- Traffic barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Traffic control personnel will be present while this work takes place.
- Work may be delayed due to weather conditions or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
